

## FEDERAL AUTHORITIES MAKE BIG OPIUM HAUL

San Diego Customs Men  
Seize \$1200 Worth;  
Arrest Two Men

SAN DIEGO, Oct. 23.—The largest haul of opium in the history of the local customs office was made late tonight, when three federal officers, assisted by police, raided a room in a downtown hotel, seized over \$12,000 worth of the drug and arrested two men, Charles England and Lee Ling Jang, the former a white man and the latter a Chinese.

Besides opium, England had in his possession jewelry valued at \$1000 and \$2000 in cash. The opium was contained in 250 cans packed in two trunks. The drug is supposed to have been smuggled by water from Mexico, the customs officials having had a tip that a large consignment of the stuff was landed recently.

## ELKS PLAN TO FORM STATE ORGANIZATION

SAN FRANCISCO, Oct. 23.—Plans for the formation of a state organization of the Elks lodge are being undertaken here today at a conference of members representing thirty-two California lodges. Sixty or more delegates were in attendance and discussion of the proposed organization met with approval. There are forty-two lodges of Elks in California. L. B. Chenoweth of Bakersfield was elected as chairman at the meeting today.

### Today Is—

Yes, today is the very best day in the year to get acquainted with what is going on in town.

A wonderful medium of information is the advertising in today's Republican. It is a live news of the business world.

It tells what is going to happen as well as what has happened.

It puts you in touch with the world's work and it opens doors of opportunity to you.

Read the advertising! Get acquainted with what is going on.

Be an "I DO IT" man or woman rather than a "FERTILIZER WILL."

The advertisements are a pleasure to the eye and not infrequently a profit to the purse. They are the lights that guide the feet of those who want to climb the ladder of success.

## A Farmer's Business

should be handled as carefully as a store-keeper's.

A bank account is a great help in doing this, as when a check is received it can be at once mailed to the bank, where it will be deposited to the sender's credit, subject to his check.

We give special attention to this kind of business, and acknowledge deposits promptly.

### The First

## National Bank of Fresno

Capital \$1,000,000.00.  
Surplus and Undivided Profits \$400,000.00

### OFFICERS:

O. J. WOODWARD, Pres.  
E. A. WALROND, Cashier.  
ROY PULLMAN, Asst.-Cash.  
T. E. MELLON, Asst.-Cash.

NO BRANCHES

## Variety

Not only is our stock very large, but we have it in greatest variety. We have many brands of whiskey, all kinds of wines and champagne, brandies that are the very best. We have both domestic and imported liquors.

Free city deliveries. Mail orders promptly filled.

## SHRINERS WILL TAKE PICTURES OF PORTOLA

Films to Be Shown in  
Fresno During Visit of the  
Concert Company

(Special to the Republic.)  
SAN FRANCISCO, Oct. 23.—Paul T. Carroll, head of the Portola celebration committee, today granted permission to the 1913 Shrine committee to use a moving picture camera in the course of the parade and tomorrow will see the start of a rapid fire and effective publicity campaign through the use of moving pictures in advertising the "Lands Around the State" concert company.

The moving picture concession had been given to another firm which had exclusive rights in the parade, but when General Director Frank B. Silverwood of the California 1913 Shrine Committee explained to Carroll that the only portion of the parade to be taken would be the Shrine contingent, the request was granted readily.

Brothers will station their camera man in the Shrine section of the grandstand and he will grind out the record of the Shrine's portion of the Portola program. Before tonight the film will be developed and will be shown to the public in the company's appearance Oct. 27. The film then will be sent to Stockton, then Fresno and then over the circuit.

## BANISHED MINISTER HEAD OF NEW CHURCH

LOS ANGELES, Oct. 23.—Friends of the Rev. O. H. L. Mason, pastor of the First Presbyterian church of Long Beach, against whom charges of misconduct recently were leveled by officers of the church and the Los Angeles Presbytery, took steps today to organize a new church with Dr. Mason at its head.

Dr. Mason was accused of indiscretions in his relations with certain women members of his flock and two formal investigations followed. It is planned to call the new church the Third Presbyterian and its official sanction is not forthcoming. It is said Dr. Mason's followers are prepared to withdraw from the Presbytery.

## FAVORS FEDERAL AID FOR MINING SCHOOL

PHILADELPHIA, Oct. 23.—Federal aid for mining schools under state control was advocated at this afternoon session of the mining congress by Representative Martin E. Foster of Illinois, chairman of the committee on mines and mining of the national house of representatives. Foster expressed his sorrow over the mine disaster at Dawson, N. M., and added that such catastrophes have weakened Congress and that Congress would refuse any reasonable request to aid the mining industry.

Edward W. Parker, statistician of the United States Geological Survey, in his address said the net profits in the coal mining business were not as large as generally believed.

## FOUNTAIN TO MEMORY OF TWO NOTABLE VICTIMS OF TITANIC DISASTER

WASHINGTON, Oct. 23.—Plans will be completed in the near future for the dedication of a fountain erected south of the White House in memory of Major Archibald W. Butt, former White House military attaché, and Francis D. Millet, painter and author, who lost their lives in the Titanic disaster. Announcement of the completion of the fountain was made today by former President Taft, is chairman of the committee which raised the fund.

## HAWAII IS TO BE WITHOUT GOVERNOR

HONOLULU, Oct. 23.—Despite Secretary Lane's instructions that Attorney General Wade Thayer be acting governor until the new governor takes his office, Thayer considers that he will have no legal authority and will not act excepting to supervise the office force.

The territory will be without an executive when Acting Governor Mott-Smith leaves for the coast on Saturday.

## "O! O! That Itching!" Stopped Instantly

## JURY DISAGREES IN JACK DRUMGOOLE CASE

Concede Guilt of Defendant  
But Unable to Decide  
Penalty

SACRAMENTO, Oct. 23.—The jury in the case of Jack Drumgoole, charged jointly with Sam Raber and Cleo Sterling for the murder last July of Cherry De St. Monice, Sacramento's tenderloin queen, failed to agree on a verdict tonight after six hours' deliberation and was discharged. Jurymen were unanimous in balloting on Drumgoole's guilt, but could not agree on a penalty. Drumgoole's defense attorneys forced him at the point of a gun to enter Cherry's apartment for the purpose of robbery.

Raber, whose trial was held last week, was found guilty and sentenced to be hanged January 2, 1914. Raber said Drumgoole killed the woman.

## GRAND JURY INDICTS THAW CONSPIRATORS

Jerome Gets New Support  
In Attempt to Get  
Runaway

NEW YORK, Oct. 23.—A blanket indictment charging Harry K. Thaw and four others with conspiracy in connection with his escape from the Matteawan state hospital for the criminal insane in August, was returned by the grand jury here this afternoon. It will be used as a weapon by William Travers Jerome in his efforts to extradite Thaw from New Hampshire.

The others indicted were former Assemblyman Richard Butler, Michael O'Keefe, "Gentleman" Roger Thompson, and Eugene Duffy, who are alleged to have been Thaw's companions in the automobile in which he escaped. These are the same men for whom warrants were issued in Dutchess county after Thaw's flight.

Bench warrants on today's indictment were issued by the court and turned over to the district attorney's office.

Jerome announced that he would ask at once Governor Glavin for extradition papers based on the new charge to be sent to the governor of New Hampshire.

John Collins, proprietor of an eighth avenue garage, was one of the first witnesses to appear at the criminal courts building today when the grand jury began an investigation of Harry K. Thaw's escape from Matteawan. Collins, it was said, was asked about the renting of the black machine in which Thaw made his dash for liberty. The Dutchess county grand jury in which Matteawan is situated, failed to return an indictment against Thaw for conspiracy and an indictment was sought by a weapon in the fight to extradite him from New Hampshire.

Benjamin Thaw, proprietor of an eighth avenue garage, was one of the first witnesses to appear at the criminal courts building today when the grand jury began an investigation of Harry K. Thaw's escape from Matteawan. Collins, it was said, was asked about the renting of the black machine in which Thaw made his dash for liberty. ## BRYAN TESTIFIES TO ABILITY OF HINDU

LOS ANGELES, Oct. 23.—Recommendations from the Secretary of State to the mental qualifications of the Hindu lecturer, Bakshar Ganesha Pandit, failed to win United States citizenship for him in the Superior court today. At the conclusion of the hearing on his naturalization application Judge Morrison took the matter under advisement.

The letter signed by Bryan which was introduced by the petitioner, reads:

"I have met Mr. S. G. Pandit and have found him a very intelligent man. While I have not heard him speak I am sure by conversing with him that he is well informed as to his country and as to the doctrines of the religious sect to which he belongs."

"Yours truly  
"W. J. Bryan."

## CAPTAIN CHARGED WITH AIDING GOMEZ'S ESCAPE

YEBE CRUZ, Oct. 23.—An order from the court here for the captain of the Ward line steamer Morro Castle to present himself tomorrow to testify in a case of long standing, caused the steamer which was to sail tonight for Havana and New York to remain at the pier with all her passengers and freight aboard.

The captain's testimony is desired in an investigation of the flight from the country of Dr. Francisco Vasquez Gomez on board the Morro Castle some months ago. The captain at first considered putting to sea on the American consul's clearance, but later he decided to wait until morning. As if to prevent the Morro Castle from leaving, a Mexican gunboat lay in the harbor tonight. The incident has been reported to Washington.

Mrs. John Lind, wife of John Lind, has a reservation on board the steamer. She said tonight that she was convinced that there was little prospect of an early departure from Mexico of Lind.

## COUNTERFEITING MACHINE IN COURT

NEW YORK, Oct. 23.—A truck bearing printing outfit, stamps and dies and other materials used in manufacturing money was wheeled before a jury in the court today when Ernest A. Muret was placed on trial on a charge of counterfeiting.

Muret was indicted on this charge with Hans Schmidt, the German priest who confessed slaying Anna Amalber, Schmidt is in the Tombs awaiting trial on the charge of murder and probably will be a witness in the Muret trial. Schmidt is not likely to be tried under the federal indictment. The Muret jury was completed late today.

EARTHQUAKE IN PANAMA  
COLON, Oct. 23.—An earthquake shock lasting about fifteen seconds occurred here at 8 minutes past 9 o'clock this morning. Houses rocked and stocks stopped, but no serious damage was reported in this city.

## BELIEVES COUNTIES WILL HARMONIZE FOR FAIR

George C. Roeding Returns  
From State Meeting  
In Oakland

Says San Francisco and  
San Diego Fair People  
Reach Understanding

That the purpose for which the meeting of county delegates was called in Oakland last Monday, namely to harmonize the counties of the state and the officials of the San Francisco and San Diego expositions, was accomplished, was the opinion expressed yesterday by George C. Roeding, who has just returned from the meeting. Roeding was elected a member of the executive committee of the State Exposition Association that was organized at that time.

"There had been feeling for some time on the part of the Southern California counties as to exhibits at the Panama-Pacific Exposition," said Roeding, "but I think that the delegates there now fully understand the situation and that Southern California will exhibit. After the matter had been thoroughly gone over, to the satisfaction of the southern delegates, they said they were not in a position to declare positively whether the southern counties would exhibit, but, led the others at the meeting to believe that they would do all in their power to encourage the union of the North and the South for a magnificent all-California exhibit."

"The feeling that had existed between the officials of the San Diego fair and the San Francisco fair was also wiped out. Acting Director General Davis of the San Diego Exposition and President C. C. Moore and Vice President R. B. Hale of the Panama-Pacific Exposition were present at the meeting and were brought into closer relations. As the result of the

## GAS ON THE STOMACH

Use Dr. Williams' Pink Pills for This Form of Indigestion.

It is a poor treatment for stomach trouble that treats the stomach alone. Back of all your lack of appetite, sourness of stomach, belching of gas, nausea, pains after eating, heaviness and jump-like feeling in the stomach, is bad blood. The food fermenting in the stomach, only partly digested, because the stomach is weak.

"Take Dr. Williams' Pink Pills and notice the difference in your condition. You will be able to eat three good meals a day with comfort and ease. The new blood, which Dr. Williams' Pink Pills make, will restore the stomach to its normal condition, positively strengthen the digestive organs and increase the flow of digestive fluids. You will also find a great improvement in your general health, and new strength in every nerve and muscle. Do not put off finding relief a single day. Get a box of Dr. Williams' Pink Pills today and begin the treatment at once."

## MERCED STREET BEING RESURFACED

Worswick Company Starts  
Work After Several  
Years of Delay

The re-surfacing of Merced street, long needed and long ago promised, was actually started yesterday morning by the Worswick Street Paving company, which held the contract for the original paving. A half dozen men were put to work tearing up the asphalt between I and J streets. The street will be resurfaced between I and K streets. The asphalt on Merced street was not properly prepared when it was laid and began to disintegrate very shortly after payment had been made for the work. The ingredients were burned and lost their cohesiveness.

The late Dr. Rowell took up the matter of re-surfacing with the Worswick company while he was mayor, and the correspondence then started was renewed under the regime of Mayor Snow. Fred Bader, president of the company, appeared before the board of trustees on one of two occasions and was refused to do the work, although maintaining that he was not legally bound to re-surface.

The asphalt re-surfacing will be done with a new apparatus, which has been used on state highway work in Madiera county. The Worswick people gave as the reason for the last delay the fact that delivery of this machine here had been delayed.

meeting they were brought into better understanding with each other and no more friction is anticipated. At the dinner given at the Hotel Oakland, Davis in a little talk offered Moore space in San Diego for advertising the Panama-Pacific Exposition.

In order to prevent any further serious differences from arising, the state association decided to hold monthly meetings, and at these meetings, if there are any differences, they will be taken up directly with the officials of both expositions and without delay.

"This meeting accomplished all the purpose for which it was called, and from now on it is expected that the counties of the northern and the southern parts of the state will work in harmony and that the two expositions will work in harmony," declared Roeding in conclusion.

## BUYS OUT PARTNER IN CLOVIS ORCHARDS

Carson Calimyrna Fig Contracts Taken Over By  
New Land Company

Articles of incorporation were filed yesterday for the Clovis Land Company to take over the real and personal property including the contracts and business of the Carson Calimyrna fig orchards and carry out and perform them. Capital stock is \$25,000 in 25,000 shares and is subscribed by Jacob Ruiner of Chicago, Ill., and E. R. and Hattie T. Beem of Fresno, which is to be the principal place of business. The incorporation marks the close of the purchase deal by Robert of the largest of his former associates, E. M. Carson, in the fig orchards near Clovis, they being the principal stockholders. Carson has lived at Clovis in the management of the property, embracing 560 acres, which were a part of the 2,400-acre Potter ranch, subdivided and sold for \$400 an acre under agreements to plant to bear into care for three years. The original owner of the fig tract were the Fresno Realty Syndicate, O. T. McCoon, A. S. Kellogg and others. Current report is that Carson's interest was bought up for about \$50,000.

## HAIR HINTS

Worthy the Attention of People  
Who Wish to Preserve  
the Hair

Always have your own brush and comb both at home and at hair dressers. Never use the brush or comb found in public places, they are usually covered with dandruff germs. Wash your brush and comb weekly with soap and warm water to which should be added an antiseptic. Shampoo the hair every two weeks with pure soap and water, or a good ready prepared shampoo.

Use Parisian Sage every day, rubbing thoroughly into the scalp. It can be had from any druggist or toilet counter. Parisian Sage, which comes in a large 50 cent bottle, is guaranteed to quickly abolish dandruff, to stop hair from falling and scalp from itching. The money refunded by San Joaquin Drug Company.

To put life and beauty into dull, dry or faded hair and make it soft and fluffy surely use Parisian Sage—it is one of the quickest acting hair tonics known.

## WHY 7000 DRUGGISTS

Guarantee and Recommend Vinol  
If any one should know the value of a medicine it is the retail druggist who sells it.

Therefore, when over seven thousand of the best retail druggists in the country recommend Vinol, our delicious cod liver and iron tonic, without oil, as the greatest tonic reconstructer and strength creator they have ever sold, it must indicate the value of Vinol.

We could publish columns of such testimony as the following:  
J. C. Brady, druggist of Fall River, Mass., says: "In cases where cod liver oil, emulsions and other tonics fail, Vinol will heal, strengthen and cure."  
Charles A. Potterfield, druggist of Charleston, W. Va., says: "It is a pleasure to sell Vinol as it gives such universal satisfaction."

Hunter McEder, druggist of Jackson, Miss., says: "We have great confidence in the strength creating and curative value of Vinol."  
We ask every run-down, nervous, debilitated, aged or weak person or any person suffering from chronic coughs, colds or bronchitis, to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim. Downman Drug Co.

P. S. For itching, burning skin try our Saxe Salve. We guarantee it.

## FLORIDA IS HUNGRY LOOKING PLACE, SAYS ANTON

Most of Soil Is White Sand,  
Entirely Unfit for  
Agriculture

Disappointed At Orange  
Groves; Big Percentage  
of Trees Dead

"The hungriest looking place in the country" is the way T. M. Anton, formerly of Fresno, describes Florida. Anton went to Florida—about time ago—expecting to sell land for a real estate syndicate, but after looking at the land, informed the promoters of it, that he had been accustomed to selling good land in California and that he would not attempt to dispose of anyone into buying any of the holdings they had to offer.

"The most of the land there is a white sandy soil," said Anton, who has just returned from there and is visiting for a few days in Fresno. "No one in California would think of offering it for sale as good land. This description of the soil, Anton said, applied to practically all of the Florida land except that in the Everglades."

"The fertility of this soil may be judged," he added, "when one learns that it costs from \$20 to \$50 a year for fertilizer. I received this information from parties who were developing holdings. Another funny thing is the way they plow. Deep plowing is unknown. They merely scrape the top of the ground."

"I was more than surprised at the Florida orange groves. I had heard so much about them that I really expected to see something like the orange groves in California. Instead, I found that in the majority of the groves, a large proportion of the trees were dead and the balance bore a very sickly appearance. You could look down the rows of the orchards and see five or six trees in each row and then long vacant places where the trees had died."

"There is little tree cultivation done there is necessary to scrape off some of the weeds."

This sandy soil was used a great deal for the raising of celery, according to Anton and while the celery grew to good proportions, it was absolutely tasteless.

"Why, I went into a Jacksonville restaurant one day and saw California celery written on the menu card. The celery they grew there is absolutely tasteless."

"The only real signs of progress he said he saw, were in places where New York millionaires had come to Florida and built handsome homes and elaborate gardens. The agricultural life of that state proved a great disappointment to him."

When he was taken over the land the syndicate was preparing to put on the market, he turned to one of the members of the firm and informed him that out in California they might as well use the benches as this kind of land for agricultural development, as far as getting any returns. The land was to be offered at from \$40 to \$100 an acre, but Anton said it would cost from \$30 to \$40 an acre more to clear it, as it is thick with weeds.

He described Jacksonville as the only real live city in Florida, although Tampa is quite a bustling town. "One man started to contrast Florida land with California lands, to the detriment of California," Anton declared, "and I got so hot about the ridiculous statements he made that I informed him that if he had ever been in California, he had never even left his train to go into a station, or he would know better."

"I saw Florida and I can tell you that I was mighty glad to come back to God's country," he concluded.

## DRAWING THE LINE TIGHTER ON ALIENS

State Board of Control  
Applies Restriction to  
Aid for Orphans

According to an intimation to the county auditor by the State board of control, the line is likely to be drawn against the children of aliens not naturalized claiming state support as orphans or half orphans. If this view is sustained, it is estimated that in this county more than 50 per cent of state applications for orphan aid will be cut off.

Moreover under the new law such children would also be excluded unless the father has been a resident of the state for 3 years and is a citizen. The state authorities evidently "construct the word citizen" to include naturalized while the exact intent and hold to the view that it means only citizenship by reason of residence without naturalization, according to their reading of the law. The state board returned to the county auditor the application for state aid by Mrs. Marashian Suran on behalf of her son, Arn, because since the father died outside of the United States, further proof would have to be supplied. It is also noted that the mother came to California in 1910 which under the law would exclude the child from receiving state aid unless the father was for 3 years a resident of California and a citizen.

It is noted, also, that he died in Constantinople in 1912, and it was asked how he had been out of the United States at the time of his death? Under the law also, it is stated that the state board cannot grant state aid to children, whose parents are aliens, where the father is asked whether the father of the child was naturalized?

The Suran case is a peculiarly complicated one. The child was born here on July 29, 1912. The Suranians married here on September 8, 1910, and in the application for aid the father is stated to have died in Fresno since 1910, he having died abroad while on a visit.

Taking the last positive date of the marriage as Sept. 8, 1910, and the 3 years up to the time of the county allowance of the \$5.00 a month lack only 15 days to round out the full period.

## "THE WONDER" CLOAK AND SUIT HOUSE

"A Store Of Women's Fashions"

Tomorrow!  
We Begin

An Extraordinary  
Sale Of  
Afternoon & Evening

Coats

At Remarkably  
Low Prices  
See Our Windows

Crepe de Chine

"Tango"

Bloomers

\$6.95

Decidedly new and practical... Very dainty new silk garments that are now being worn with fashionable dresses instead of petticoats.

They come in pink, white, Alice blue, navy and a very beautiful American Beauty rose shade. Special at \$6.95.

"Kayser's" Silk Underwear is

Sold Here at Less Than

Usual Prices

"THE WONDER" prices for the celebrated "Kayser" silk underwear will be found to be considerably less on each garment than is usually charged.

The assortments include several varieties each of vests in Italian and Venetian silk (plain or embroidered) also union suits and bloomers.

An Almost Entirely New Exposition of

Women's Suits and Dresses

Is Being Shown This Week

The ever changeableness of styles is nowhere better illustrated than in the present week's exposition of fashions. Among the great many suits and dresses, lately received, there are few, if any, that do not introduce some detail or feature that is distinctively new—belonging to the creations of but a few days immediately preceding the present time. So that now, with assortments daily augmented by large arrivals you may see a wonderfully beautiful, and very much changed exhibit of styles.

More Lace Waists

and Paris Blouses

Lace and net waist styles are developing many new and charming styles, and are increasing in popularity every day. The "transparent idea" that pervades the fashions in other garments is having its influence in waists. A very beautiful assortment is now on display. Priced at \$2.98 to \$35.

An Introduction Today

and Tomorrow of New

Millinery Modes

You will find in our millinery section today, an unusually fine selection of the very latest—Parisian and Fifth avenue modes—particularly pleasing and varied are the many varieties of the exceedingly popular black velvet hats—Some made by our own milliners—prices are \$7.50, \$10, \$12.50, \$15 and up to \$25.

"WONDER" Moderate Prices

The Wonder is always an exclusive style shop, but never exclusive in price—Moderate prices are as much a feature as correct, new styles.

## TRAFFIC ORDINANCE

## CONFERENCE CALLED

Trustee Hart Says Proposed  
Regulations Too Stringent  
for Small City

City Trustees Irwin, Hart and Pickford will come together next Saturday afternoon for a conference on the traffic ordinance and formulate a report to the board for action in the adoption of an ordinance for the regulation of traction cars and traffic generally in the downtown congested district.

According to report the committee is likely to make wide departures from the ordinance framed by City Attorney Smith, and the latter gentleman may not recognize his own work in the ordinance that the committee will report. Trustee Hart has given the subject much attention and gone over the ordinance in detail to note changes that he will advocate.

I favor as necessary some general provisions for the regulation of traffic in the congested district, but I am decidedly opposed to taking the provision of an ordinance for cities of half a million population and make them applicable in a city of the size of Fresno. The ordinance is in large part from the San Francisco and Los Angeles ordinances, the conditions here are not the same and do not call for the stringent regulations that are necessary in the two biggest cities in the state. I shall oppose the ordinance in the strongest form as presented.

## MARASHIAN GOES

## TO STATE ASYLUM

Commitment May Prevent  
Wife Securing Final  
Divorce Decree

With the sending by Judge Church yesterday of Hazan Marashian to Stockton as an insane person, the question arises what legal effect his commitment will have to prevent the wife from securing the final decree on the divorce granted about a year ago and the time for which has almost elapsed.

The testimony at his second insanity examination related largely to the acts of the accused man more than a year ago, when he shot and wounded his brother-in-law in the hip and turned the weapon on himself when a crowd of police gathered to apprehend him in the home. Marashian was in the county hospital for months in a precarious state as the result of the self-inflicted wound in the stomach.

After partial recovery he was examined for insanity, but discharged. Meanwhile the wife had sued for divorce and was granted the decree, and the question is now whether that divorce is affected by the fact of his presumed insanity at the time and despite the discharge as the later examination would indicate. Relatives of Marashian sent him to Chicago to be away from local environments, but he returned a fortnight ago in no improved mental condition and began making trouble in visits to the wife to induce her to take up again with him.

## BOLDNESS FOR PEACE

It would, of course, be impossible as well as unwise, to pass final judgment on the policy of President Wilson with respect to Mexico while that policy is still in its middle course. With its motives only imperfectly revealed, and its consequences as yet wholly unknown, but, within the limits of this reservation, there is serious reason to fear that this nation is now much nearer the verge of war with Mexico than it would have been if a more vigorous policy had been pursued from the start. Sometimes the best way to keep out of war is to march directly and vigorously toward the issue of war. If all the world had been early and positively notified that the American nation accepted unreservedly its responsibilities under the Monroe doctrine and proposed to take charge of the situation as trustee for the world, and if Mexico had been notified with equal bluntness that certain definite things must be done at once, and that the United States stood ready to see to their doing, this would have been, of course, to give to Mexico the immediate issue of peace or war. There is perhaps one chance in a dozen that it might have precipitated war and in that case the moral responsibility of forcing it would have seemed to come on the administration proclaiming so truculent a policy, but there would have been eleven chances of Mexico's yielding and establishing a situation which would have made war unnecessary, while there are now perhaps ten chances out of the dozen that the original omission to take the twelfth chance will now precipitate us into the war which the taking of that chance would almost certainly have avoided.

We will still cling to the hope that the course of events may not justify this criticism. It is catching a situation in the middle, which cannot resolve final judgment until the end. But as matters drift now there is really room for the discouraging fear that intervention, amounting to war, may force itself on us, and for regret that the chance to escape war by threatening war was not taken while it existed.

## TWO PRESIDENTS

The oration of former President Taft at the dedication of the Grover Cleveland memorial tower at Princeton suggests several interesting analogies between the qualities and careers of the two Presidents. Both by a curious coincidence were physically the largest men who have occupied the presidential chair within memory. Both were men of slow but good minds, of high character, and great earnestness of purpose. President Taft was much the better equipped and more highly trained man, but President Cleveland showed the more forceful character. The most striking analogy between the two is that both found their parties victorious and triumphant and left their complete wrecks, and that the immediate occasion of the wreckage in each case was a tariff bill.

President Cleveland took his party, after the total collapse which continued for so many years after the Civil War, and became its leader at the very zenith of its restored strength. When he ended his term, his party was such a total wreck that it was only saved from formal dissolution by a complete reorganization under new leadership and by an outright repudiation of the President and everything he represented. President Taft likewise entered office with his party stronger than ever it had been before, even through its long career of victory. When he ended his term, its only hope of life was again to repudiate the President and the whole element which he represented and to start in a new direction under different and hostile leadership. The party members voted to do just this, when the party committee prevented them from doing so, the party went down to the most overwhelming defeat ever suffered by a party of national proportions in America.

History has dealt more kindly with Grover Cleveland than his contemporaries did, and his memory is now held in universal respect. History has already begun to deal in personal kindness with President Taft, and his memory will go down to posterity with its absolute respect, for a long career of wonderfully useful achievement, wrecked at the end, but not personally discredited, by the consequences of an unexpected series of monumental political blunders. The two Presidents who wrecked their parties doubtless thereby rendered good service to the progress of history, and they were fortunately men against whom there can be no possible bitterness of feeling. But there was perhaps a pathetic appropriateness in the fact that the one delivered the principal speech at the dedication of a monument to the other.

## SEAMEN'S SERVITUDE

The passage by the United States Senate yesterday of the seamen's servitude bill, so amended as to avoid the difficulties in regard to existing treaties, is a distinct step forward, not merely in the interest of the seamen themselves, but also in the interest of American shipping and of the safety of sea traffic everywhere.

From time immemorial the laws of the world have treated sailors on a different basis from all other laborers. Any other laborer may cease work at any time he chooses. For a sailor to refuse to work while on the open sea is criminal mutiny. For him to leave his job at the outer port of call and refuse to make the return journey is a form of desertion for which he may be put forcibly back on his ship. Laws

like this in regard to any other occupation would be contrary to the constitution, as imposing involuntary servitude. In the case of seamen, the provision referring to the open sea is, of course, necessary. A ship must be put to port, and no dispute between the captain and the seamen can be permitted to settle itself in a manner which would interfere with bringing the vessel to land. A strike on the high seas is properly mutiny, and it has never been proposed to extend to sailors any rights or concessions in this respect.

The case at the outer port is different. The case of a vessel reaching the port to make the return voyage is commercial and not vital or human. A strike under these circumstances could do no harm to the conduct of sea-going vessels which similar strikes do not do in the conduct of the railroad business. The individual resignation of his job by a single seaman at an out-going port imposes on the ship owner nothing but the inconvenience of hiring another seaman in his place, and of paying such wages as may be necessary at this port. This is an inconvenience in which the public interest is not vitally involved, and in which human life and safety are not involved at all. There is therefore no essential reason why sailors at an outer port should not have the right to quit their jobs at that port, with no worse penalty than the forfeiture of a portion of their accrued wages. The new law will put sailors to this extent on an equality with other laborers.

It will have several other important effects. If a sailor bound for an American port, for instance, can quit his job at an American port, he may find another job there at American wages, and the foreign ship owner may be compelled by necessity to hire his successor at American wages. This will tend to equalize the general standard of wages at sea, which is a good thing for the sailors. And it will also tend to remove from American shipping one of its most serious handicaps, and thereby open an avenue to an increase of the use of American bottoms for American commerce. Other provisions of the bill require that a certain proportion of the employees of every ship shall be actual seamen who know the business of the sea. The introduction of steam and machinery on modern ships has transformed the vessel to a large extent into a combination of factory and hotel, and most of its employees are landmen who have no knowledge of seamanship. The navigating officers are sailors. But when an emergency comes in which it is necessary that the working crew shall understand seamanship also, there are frequently not enough actual sailors on board ship to man the boats, or to perform any other seamanly duty. If an American law can exert pressure to send sailors on ships to run them, and thus to allow them to quit their jobs at safe ports in order to seek better ones, it may go far toward restoring the ancient craft of the sea to its former respect and dignity.

## STANDPAT MOVES

A long story of political gossip appears simultaneously in the Sacramento Union and the Los Angeles Times, and is apparently directly inspired from sources very near those who hope to become the leaders in a reorganized standpat Republican party. According to these circumstantial stories, it is programmed to put up a slate of rigidly old line Republicans, with District Attorney John D. Fredricks of Los Angeles as candidate for governor, and either Samuel M. Shortridge or Joseph Knowland as candidate for senator, with the purpose not of electing this ticket, but "of putting this Progressive party out of existence once and for all, even though it means a Democratic victory in California next year." The purpose is to defeat Governor Johnson because he is a Progressive, and to take every possible risk on the other offices for the expressly announced purpose of destroying the Progressive movement forever, and of restoring the old regime to control of the Republican party, and then, if possible, of the state.

The only other political project seriously under discussion in the same direction is the proposal of the Pasadena News, which has been taken up by various other newspapers, of having a fusion ticket of Republicans and Democrats, with a Democrat at its head, on the platform "Anything to beat Johnson."

The significance of these pronouncements is not so much in any likelihood that they will accomplish the results they seek, as it is in demonstrating that the supposed down and out reactionary forces are becoming belligerently active and that there is no possible means of combating their restoration to power except through the separate organization of the Progressive party and the participation therein of all actual Progressives. Those Progressives who cling with affection to the Republican name and who would give that name up with regret are entitled to all respect for this very natural sentiment. But if this is the spirit in which the Republican party is to be reorganized in California by those who are now undertaking its reorganization, no Progressive of any name or affiliation can have any part or sympathy in that movement, or in that party as thus reorganized. Whether it is a fusion movement to elect the Democrat directly or a standpat movement to elect the Democrat indirectly, there is no Progressive reason and no Republican reason for joining in that movement. There is no reason but a standpat reason and not even a standpat reason except for those whose hostility to Governor Johnson and to the Progressive movement is so great that as Republicans they would seek Democratic victory rather than risk contributing anything to the Progressive cause. What little is left of the sentiment of loyalty toward the old party name on the part of persons who are Progressive in principle will soon disappear if this is the sort of hammering to be indulged in by those who assume the custody of that name.

## The WORLD'S MYSTERIES

## WHAT HAPPENED TO HERR KELLER?

One of the most mysterious crimes of the early part of the nineteenth century was the murder, or at least supposed murder, of Herr Keller, the chief magistrate of Lucerne, Switzerland, on the evening of September 12, 1816. The magistrate left his office for his home in the country accompanied by his two daughters. It was a very disagreeable night and the three kept closely together along a path following the course of the Reuss, which was rather dangerous at places. Now and then the three would converse, and finally the two sisters, who led the way, reached home and upon looking around for their father they were surprised to find him missing. They were sure that he had been with them but a few moments before. Servants were summoned and a party started out with lanterns in search for the missing man. Their search was in vain.

On the following day the body of Keller was found where it had been washed ashore by the swollen torrent. The doctor who examined the body said that the man had been in search for a fit and probably had rolled into the water. As it was well known that Keller occasionally had fits this seemed conclusive.

## Imagination

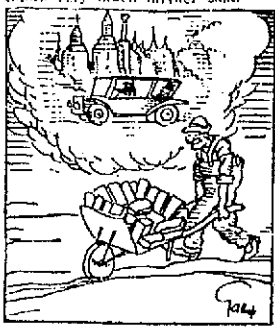

By GEORGE FITCH,  
Author of "At Good Old Siwash"

Imagination is seeing things back of the eyes. Some men have to walk ten miles in order to gaze upon a recent lot and make sure it is there. Other men can comprehend the miles away and see the lot with a fifteen-story office building on top of it. Some men can only see the half-penny fish which they had in their lines. Other men can see and describe accurately the 11-pounders which were within four feet of the surface when they fell off the hook. Some men can only see a day's work when they rise in the morning. Other men can hardly see the work because of the lack of patience, private yachts and country estates which loom up just beyond it.

If a man has no imagination he can see about a mile and a half on this earth, and into the future as far as he can poke his finger. But the man with imagination can be enjoying a ball game which is going to take place next week 500 miles away while he is wheeling bricks; and he can ramble around in next year as readily and profusely as if he had an annual pass on tomorrow, signed by the president of the Universe.

Imagination keeps some men happy and powerful while they are hunting for jobs. It elects others president while they are rummaging the office of a manager. It makes champions and heroes of men who perform great deeds while witnesses are unavoidably absent; and it keeps many people climbing large and knobby mountains of vice and tribulation which they might easily step over if they only thought so.

Imagination gives a man wings, and makes him a resident of the centuries gone and of the centuries to come. It also everlastingly busts him once in a while. Beware of the other fellow's imagination. Too many men have perished in a damp and festering hole in the ground in the west and have seen therein wheelbarrow loads of solid gold, which they have sold to eager investors very much further east.

Imagination is an exhilarating as well as a sobering and much easier on the system. But every man should equip his imagination with a cut-out lever. A little imagination will increase a man's happiness 100 per cent, but when it gets to work on his troubles it makes them grow like dog weed in a potato patch.

and the alleged accomplices. They confessed so freely and fully and with such engaging candor as to create some suspicion. Their story was that they had met Dr. O'Reilly and Pfiffer at an alehouse on the evening of the crime, and had agreed to remove Keller for a certain sum of money, which would be handed over as soon as the deed was done. The job done, John Wendel waited upon the doctor next day and was paid his wages in gold.

The story was circumstantial, and covered every possible point. As the trial went on, and the witnesses were examined and re-examined, and badgered by lawyers, they began to contradict each other and to confess things that were known to be untrue. So it was easy in the end to shoot their testimony full of holes, and the doctor and Pfiffer were acquitted after having been in jail six months. They suffered more than the imprisonment, however, for they were ostracized as long as they lived. The acquittal failed to convince their neighbors that the story of the Wendels was untrue.

## TARPEY HONORED BY PALACE DINNER

James Madison of Fresno Among Speakers At Home Industry Banquet

(Special to the Republican.)  
SALE FRANCISCO, Oct. 23.—The celebratory dinner given in the lower House of Congress against the Pomerene amendment, which promised to wipe out the California wine industry, a banquet was given by the Home Industry League of California to M. P. Tarpey of Fresno, one of the delegation in Washington, at the Pulaski Hotel tonight. Two hundred and seventy-five guests sat down at the banquet, which was presided over by A. C. Rutolofson, president of the league.  
In his speech opening the talks of the evening, President Rutolofson told of the work Tarpey had done for an important California industry and at the conclusion of the speech, a standing toast was drunk to the guest of the evening.  
Tarpey in his speech disclaimed any credit for doing exceptional work at Washington, and turned to the other delegates there who had helped in the fight, the names of whom brought forth prolonged cheers, and paid special compliment to the members of the California delegation in Congress in the fight.  
Andrew Sharbino spoke on the value of the wine industry to the state. He pleaded for the proper use and not abuse of the juice of the grape.  
Robert Newton Lynch's speech was in its entirety a compliment to Tarpey for the work he had done in Washington, and then James Madison of Fresno spoke on the future of the wine industry, and what it would have meant had the Pomerene amendment carried.  
Samuel H. Shortridge, the last speaker of the evening, said he wished to pay his personal gratitude to Tarpey for the good work he had done in Washington.

The timely arrival of Walter E. Bonnett, local manager of the United States weather bureau, at the Normal school building early Wednesday evening, saved the temporary structure from destruction by flames. In forcing an entrance through a window Bonnett suffered a severe laceration of the arm. The fire is believed to have originated in a box of oil saturated cotton waste used for polishing desks. Little or no damage was inflicted.  
Bonnett was returning to his home north of Fresno about 7:30, when he noticed a light in the building, which proved to be a small fire. Seizing a garden hose, Bonnett thrust his hand through one of the windows and turned the stream onto the box.  
About this time two young men, both watchmen at the building, returned from supper. With the aid of fire extinguishers and the hose, the blaze was soon under control.

## EXTINGUISHES FIRE IN NORMAL BUILDING

Walter E. Bonnett Injured In Forcing Entrance Through Window

The timely arrival of Walter E. Bonnett, local manager of the United States weather bureau, at the Normal school building early Wednesday evening, saved the temporary structure from destruction by flames. In forcing an entrance through a window Bonnett suffered a severe laceration of the arm. The fire is believed to have originated in a box of oil saturated cotton waste used for polishing desks. Little or no damage was inflicted.  
Bonnett was returning to his home north of Fresno about 7:30, when he noticed a light in the building, which proved to be a small fire. Seizing a garden hose, Bonnett thrust his hand through one of the windows and turned the stream onto the box.  
About this time two young men, both watchmen at the building, returned from supper. With the aid of fire extinguishers and the hose, the blaze was soon under control.

Justice W. H. Keen of the Coalinga township asked the supervisors for a get of color and the statutes and amendments to the codes for 1911-13, never having had any of these books and needing them in his business, as he says.

Information was filed yesterday against Giuseppe Randolf for abandoning his wife, Irena, who was not justified in doing so by any misbehavior of her. This is the case in which he had been arrested for insanity a few days ago, claiming she had threatened to split his skull open with an axe.

## NINE LIVES ARE LOST IN SOUTHERN STORM

Tornado Cuts Path 500 Feet Wide Through Louisiana Plantation

NEW ORLEANS, La., Oct. 23.—A white woman and her baby and seven negroes lost their lives and thirty-six persons were slightly injured in a tornado which swept over southern Louisiana at dawn today. Cane crops were razed, dwellings and fences demolished and other damage done on plantation southeast of this city.  
Cutting a clean path 500 feet wide, the tornado swept through the Ellington plantation at Lulu, La., demolishing the negro quarters, killing five negroes and maiming several others, including a white woman and man.  
Wire communication was interrupted and it was late this afternoon before the range of the storm and extent of the damage was known.

## IN THE LODGE ROOM

**WOMEN OF WOODCRAFT.**  
Acacia Circle No. 13, Women of Woodcraft, met in W. O. W. hall with a good attendance last night. Neighbor Pusey of 1416 W. Main, was a visitor and responded with an enjoyable talk on Woodcraft. A very welcome visitor was Neighbor McNeil, who has been absent for a long time.  
The Thimble Club will meet with Neighbor Goode at 416 Valeria street next Wednesday afternoon.  
All is in readiness for the card social to be held in the W. O. W. hall next Thursday night and the committee reports great preparations.  
A. O. A. M.  
A resolution favoring the use of the Bible in public schools was passed last night at the meeting of Gen. George Washington Council No. 49, A. O. U. M. Several members were initiated.  
The resolution follows:  
Resolved, That it is the sense of Gen. George Washington Council No. 49, that the Bible shall be read daily without comment in the public schools of California.  
The 37th team of Central California Lodge No. 343 entertained the members last night. P. L. Flanery of Vancouver Lodge No. 2, Vancouver, Washington, was a visitor. An entertainment will be given next Thursday evening.

—Main Floor

# SOCIETY

Mrs. E. A. Walcott was the hostess at one of the largest bridge parties of the season last evening at her home on Fresno street. The living room, where nine tables were arranged for the evening's games, were simply ornamented with a pretty arrangement of autumn blooms, and after several progressions in the popular game, tempting refreshments were served.

Among those who enjoyed the hospitality of the Walcott household on this occasion were Messrs. and Mesdames Harvey W. Swift, E. M. Rummel, E. B. Mahlem, Frank Hall, J. L. Maupin, Albert Warren, Montgomery Thomas, Milton Dearing, W. A. Dean, H. J. Craycroft, DeWitt Gray, M. B. Harris, W. D. Weaver, Frederick Twiss, George H. Monroe, Thomas W. Patterson, Charles Mosier, D. H. Trowbridge, Mrs. C. L. Weaver.

A paragraph culled from the social columns of yesterday's Chronicle will prove of interest to many Fresnoans. Mr. and Mrs. Charles Teague (Marquette Butters) are expected home from the East within the next day or so. They spent their honeymoon in New York and the West Indies, where they went for a twenty-five days' visit. The Teagues will take apartments at the Palace Hotel in San Francisco for a week or so before going to Fresno, where they will make their permanent home. The wedding of the couple was one of the prettiest of the season and of wide interest here, where the bride made her home at one time. She is the daughter of the late Mr. and Mrs. Henry A. Butters and a sister of Mrs. Victor Metcalf, Jr.

In compliment to Mr. and Mrs. Hugh Montague of Berkeley, who are the house guests of Mr. and Mrs. Hector Burgess at their home on the Anita vineyard, Mr. and Mrs. Edward J. Elliot will entertain at dinner this evening at their country place, "Ardon". Among those who will be included in the congenial little party with Mr. and Mrs. Montague and the host and hostess will be Mr. and Mrs. Hector Burgess, Mr. and Mrs. James Beveridge, Mrs.

W. H. Hodskin, Miss Anna Parsons of Berkeley, Lionel Dalton, William Y. Spence.

Miss Marjorie Harris will be the hostess at a house dance this evening at her home on M. J. Redu avenue, honoring Miss Lisa Schilling of Berkeley, who is her guest for a fortnight.

Mrs. Gail Hare was made the motif for a delightful complimentary affair yesterday afternoon, attending her recent return from her honeymoon, Miss Alice Miller entertaining a group of congenial friends at her home on S. Street.

A clever sewing contest provided entertainment for the early afternoon hours. Miss Eleanor Webster proving her skill in needlework, being awarded the souvenir for the afternoon. At the refreshment hour, the guests were seated about a large round table that was ornate in autumn garlands of foliage and a centerpiece of rich colored marigolds. Attractive novelties served up place favors for the following guests: Misses Hazel Cutton, Mabel Hixson, Dorothy Burdick, Debra Miller, Helen Hare, Marion Hare, Roy Long, Marjorie Neely, Elizabeth Haves, Lela Walker, Anne Collins, Sue Cooper, Gladys Robinson, Mona Robinson, Hazel Fisher, Bernice Olney, Frances Cox, Anne Tupper, Helen Tupper, Eleanor Webster, Bernice Olney, Mabel Olney, Dorothy Noble, Helen Miller, Margaret Miller.

Members of the Home Department of the Parish Lecture Club enjoyed a unique afternoon at the club house yesterday, which was planned by Mrs. J. H. Austin, chairman of the afternoon arrangement. It was a well-attended party with a quilting bee the chosen form of entertainment. Squares of material were furnished the guests, and there was a spirited contest to see whose completed square would win the approval of the judges, the best of their approval, and its complementary trophy, being awarded Mrs. Richard Moore. The club house was re-

splendent in decorations of autumn foliage and golden red, in artistic arrangement, and during the afternoon stirring airs of "ye olden times" were provided by a color guard, who were given a place of elevation. He later provided the necessary musical accompaniment for a Virginia Reel, and a Paul Jones, calling the terms in old Southern style.

The appointments for the affair were carried out in the costumes of Miss George W. Smith and Mrs. John A. Neu, who presided at the refreshment tables, the former wearing a gown that belonged to her grandmother, and was ornamented with rare lace. Mrs. Neu was becomingly attired in an old fashioned frock of blue silk, with quality flowing sleeves. Souvenirs for the afternoon were easily checked rapids to "take home to the children", this being a time honored custom in the Colonial days.

The club is anticipating with much interest the lecture which will be given next Thursday evening by Herbert W. Glendon of Boston, who will be on the topic, "The Canadian Alps, with stereoscopic illustrations."

Mr. and Mrs. Earl Kistrell (Hazel Hagas) have returned from an enjoyable honeymoon trip to the Bay cities, and are cozily established in their new home, 1949 Roosevelt Avenue.

Mrs. E. E. Manheim will be the hostess at the meeting of the Friday Afternoon Card Club this afternoon at her home at L. Street.

The Bridgettes will play their usual games of Loo this afternoon at the home of Mrs. J. H. Austin, at the home of Mrs. H. A. Hagenman, 1921 Washington Avenue.

The Florence Nightingale Circle of the First Christian church will hold its meeting this afternoon at the home of Mrs. H. A. Hagenman, 1921 Washington Avenue.

Mr. and Mrs. J. R. Jones have issued announcements of the marriage of their daughter, Miss Grace Jones, to James H. Smith, the ceremony having been quietly solemnized in San Francisco on Tuesday. After a honeymoon in the Bay cities they are expected to return to Fresno about November 5th.

The Friday Study Club will meet this afternoon with Mrs. J. A. Burns at her home on Washington Avenue, continuing the study of Shakespeare's Henry V, under the able guidance of Mrs. W. P. Miller.

The marriage of Miss Margaret S. Vinyard, of Olean, and Samuel Ellis, of Selma, was solemnized on Sunday at the home of the bride in Olean, Rev. Woods being the officiating clergyman. A wedding supper followed the ceremony, after which Mr. and Mrs. Ellis left on their wedding trip.

Mr. and Mrs. A. F. Keen of 1032 M St., were pleasantly surprised last evening by a group of friends who assembled for a social evening. Tempting refreshments were served at the conclusion of the evening's informality. Those present were Mr. and Mrs. L. T. Banks, W. W. Watson, J. E. Howard, Leanne, Mrs. Alice Elam, Grace Edger, Cowan, Misses Ella and Alice Sackett, Flora Ford, Mary Weber, Clyde Elam, Mr. Mays, E. T. Percell, Ed Stafford.

A skating party was enjoyed by a party of young people at the Recreation Park rink on Wednesday evening, the duties of chaperone being assigned to this occasion by Mrs. H. H. Staples, Mrs. Harkness and Mrs. R. D. Sizer. Among those present were Inez

## COMMONWEALTH CLUB ON NEW CONSTITUTION

Section Is Appointed to Investigate and Report On Proposal

The Commonwealth club of California has taken up the legislature's proposition for a new constitution for the state, and has appointed a strong section to investigate and report upon the question. The legislature at its recent session put before the voters a call for a constitutional convention and the people will pass upon it at the election of November 3, 1914. The question is one of the most important that has been put before the voters since the adoption of the constitution of 1879, and calls for the most careful consideration. The section of the Commonwealth club is announced as follows:

Walter Gregory, chairman; C. M. Bolshaw, A. E. Holton, H. C. Brundage, A. A. D'Amico, Wm. Dorman, R. M. Fitzgerald, Beverly L. Hughes, Wm. Carey Jones, Percy V. Long, Walter MacArthur, R. A. Mason, Orrin K. McMurtry, Leopold Oppenheimer, Chas. Weston Hunt, Frank H. Short, Grant L. Smith, W. V. Stafford, W. A. Sutherland, Max Tholen, E. S. Webb, E. A. Walcott, Chas. S. Wheeler, Andrew Y. Wood, Lewis R. Works, Alice C. Wright, C. C. Young, E. R. Zion.

The section will consider, first, whether it is desirable that a convention be called. If it is considered that this proposition is likely to carry the section will then report upon the form of constitution it would recommend. The section is appointed, contains some of the best constitutional lawyers in the state, and is representative of all elements of the community. It will report next summer.

Burkes, Rae Devins, Nettie Georgeson, Charlie Lawler, Elva Siler, Ralph Simpson, Zella Sizer, Frank Lovoy, Elsie Lawler, Oliver Siler, Phyllis Wakefield, Jack Lowry, Margaret Staples, Lester Staples.

Mr. and Mrs. Fred William and Dr. May Martin are over from Santa Cruz, visiting with Mrs. Willie Belle Clark.

## COLONISTS COMING IN LARGE NUMBERS

W. E. G. Saunders Says Many Are Preparing to Take In Fair

The outlook for colonist travel to California this year is greater than it has been for some time. It is the opinion of W. E. G. Saunders of the firm of Saunders & Leas, who arrived in Fresno yesterday from his home in Emmetsburg, Iowa, he asserts that people of the East are coming to California in larger numbers than ever before.

Another thing noticeable, according to Saunders, is the preparation that are being made to come to California for the Panama-Pacific Exposition. Tours are being purchased on the installment plan in many cases, he says, the buyers of tickets, paying so much each month.

The reasonableness of land in the San Joaquin Valley is a matter that cannot be fully comprehended, especially by those in the southern part of the state, according to the real estate man, and some are inclined to believe that the low prices asked indicate inferior land.

The Women's Alliance of the First Unitarian church will hold a rummage sale at 502 D street, beginning Tuesday, Oct. 28. Parties having rummages will please telephone Mrs. Geo. Babcock 1222 Y, or Mrs. L. C. Sanborn, 2153, and articles will be called for.

Quantity—on—fuel—Phone—299—Fresno Fuel Company.

(Mrs.) Dr. C. M. Williams, chiropodist.

## CHAS. H. BENTLEY SHOT BY HUNTER

Manager of C. F. C. A. Badly Wounded in McCloud River Region

Charles H. Bentley, manager of the California Fruit Canneries' association, and well known in Fresno, was mistaken for a bear a few days ago while hunting in the McCloud river region and was shot and seriously wounded. He is now at a San Francisco sanitarium, but the physicians in charge say he will recover. It was some time after he was shot before he received proper medical attention and his serious condition is attributed to the loss of blood and exposure.

## M'KINLEY GROWERS HEAR PEACH PLANS

Enthusiastic Meeting Held At School; Another Soon At Roeding

An enthusiastic meeting of peach growers was held in the McKinley school last night and a number of subscriptions were secured to the growers' dried fruit company. W. F. McKelvey spoke of his experience in so selling apples for the dried fruit company, and the growers expressed much encouragement over the results shown. F. Busbee, T. Penland and J. Becker of the Associated Raisin Company told of their experience in the fruit raising, that sentiment at present was very favorable to the organization of a peach company.

Another meeting of peach growers will be held at the Roeding school within a few days. Arrangements for this meeting are now being made by E. W. Hyde and Frank Loring.

## BACKER FOR ROGERS' LINE INSPECTS ROUTE

J. J. Mahoney Pleased With Prospects; Definite Course Selected

J. J. Mahoney, San Francisco capitalist and one of the backers of a proposed electric line connecting Fresno with Clovis, was in Fresno yesterday and made a trip over the various routes with J. H. Rogers, promoter of the line. Rogers has been working on several routes on a general line to Clovis and last night he announced that a definite line had been selected. He said that the course would be made public in a few days but at the present time there were a few odds and ends that must be cleaned up.

Rogers declared that he did not have every inch of his right of way secured or his bonds but that things were in such shape that he was confident the line would be built in short order. Rogers said that no bond issue would be necessary with his road as Mahoney Brothers had the money to invest and all they required was interest on the investment, which was the bonus.

Mahoney motored to Fresno from Los Angeles, arriving here late Wednesday night. He was accompanied by his wife, Rogers will go to San Francisco Saturday and hold a conference with his backers and will return to Fresno Monday night or early Tuesday morning.

## CLAIMS DEED IS IN FACT A MORTGAGE

W. H. MacGillivray sued F. D. and Leda A. Hopkins to have it declared that their deed of May 25, 1912, to the plaintiff be declared a mortgage and to foreclose the latter as to lot 7 of Perrin Colony No. 2. Hopkins contracted on May 31, 1912, to purchase from MacGillivray the north half of section 25-1-18 for \$40,000, payable in ten years. For the \$2,800 interest then due deed was given to the Perrin Colony lot while while in fact such is in fact a mortgage to secure the agreement as MacGillivray contends.

## SUES FOR FURNITURE AND BALANCE DUE

Suit was brought yesterday by Lillian A. Walsh against R. L. and J. R. Cain of Selma and F. M. Umphred & Son of Colton for the delivery of furniture on storage or \$1,670.30 as its value with interest from October 15, 1912, besides \$250 against the Cain first named with interest. On the date in question, R. L. Cain delivered to her mother for the delivery of furniture sold order also endorsed by J. R. Cain. Delivery has never been made. The personal judgment against R. L. Cain is for a balance of \$250 due on the purchase price of real property.

## SURPRISING CURE OF STOMACH TROUBLE.

Jacob Hindell, of Chelsea, Mich., was ill with stomach trouble and in such bad shape that he lived for two months on linewater and milk. He then began using Chamberlain's Tablets. He says: "I am seventy-six years of age but never in my life used any medicine that cured in such a short time as Chamberlain's Tablets."

Your liver is very important to life. A dead liver means death. A sluggish liver means ill health. Osteopathy is the best means of stimulating and regulating liver action. Its work is direct, and results immediate. Try a few treatments, you will be surprised and gratified with the results. Dr. A. L. Hunt, Osteopathic Physician, of 400 Over Hollands.

## ORGANIZE GLEE CLUB AT Y. M. C. A.

Clubs Discuss Live Topics of Day; Eastman Back From Conference

Temporary organization of the Young Men's Christian Association Glee Club was effected at a meeting of songsters last night with the election of the following officers: Ralph Lee, chairman; Charles Kearney, secretary; Joseph Reiss, a meeting of these three will be held this afternoon and the work for the year outlined. Leo Turner, who will direct the club this year, will attend the meeting.

The Hilda's Discussion Club and the Arena Club met last night and discussed the question, "Why so many young men are dissatisfied with their jobs." William Glass was the leader for the Hilda's Club and M. G. Gallaher directed the work for the Arena Club.

During the discussion, Mr. Glass declared that working conditions had greatly improved during the past ten years and that the boys of the present day had a much greater and broader opportunity. Mr. Glass stated that men should specialize and warned his hearers against working just for the money that might be earned.

W. D. Eastman returned yesterday afternoon from San Francisco, where he has been attending a conference. Mr. Eastman states that the meeting was a largely attended one and that the work taken up was of great interest to the Y. M. C. A. workers.

A men's meeting will be held Sunday afternoon at 3 o'clock. Mr. W. A. Hunter is the speaker. His topic is "Five Arousing Facts." Prof. I. W. Brown will sing. The Long Table Club will meet Sunday afternoon at which E. W. Lindsay will speak on "Regeneration." A meeting of the Y. M. C. A. fellows will be held at 3:30 o'clock.

The Junior All-Stars will entertain the Junior Pippins this afternoon at the Y. M. C. A. Athletics and a feed will be the feature of the evening.

The All-Stars and Pippins meet in indoor baseball today, while the Red Sox contend with the S. M. B. team.

### HUMANE SOCIETY EXECUTIVES MEET

An executive meeting of the board of directors of the Fresno County Humane Society was held yesterday afternoon at which William Harvey, Sr., president, reported that \$1293.20 had been handled by the society since the first of the year and turned over to the various hospitals, kennels, and their children. He reported that 50 wives and 117 children, then destitute, had been relieved by the Humane Society, prosecuting the fathers and placing them under bonds to support their families. A big increase was reported over the work of previous years.

### BENTLEY SHOT BY UNKNOWN HUNTER

SACRAMENTO, Oct. 23.—Charles M. Bentley, manager of the California Fruit Canneries and formerly president of the San Francisco Chamber of Commerce, was shot by an unknown hunter in the McCloud river region several days ago. A bullet from a heavy calibre rifle shattered his arm. The hunter said he took Bentley for a bear. Bentley was assisted to the McCloud River Country club, five miles away, by the unknown man. Bentley was sent to San Francisco for treatment. His condition is serious from loss of blood.

### NO MAN IS STRONGER THAN HIS STOMACH

LET the greatest athlete have dyspepsia and his strength will soon fail. One's stamina—forcefulness and strength of mind or muscle—depend upon the blood, and the blood in turn, requires a healthy stomach, for the elements are taken up—or assimilated—which make blood. In consequence all the organs of the body, such as heart, lungs, liver and kidneys, as well as the nervous system, feel the bad effect if the stomach is deranged.

### Dr. Pierce's Golden Medical Discovery

helps the stomach to digest food properly, starts the liver into new activity, removing the poisons from the blood, and the blood is purified, instead of being ill nourished. The refreshing influence of this extract of native medicinal plants has been favorably known for over 40 years. Everywhere some neighbor can tell you of the good it has done.

Sold by all medicine dealers in liquid or tablet form or send \$2 one-cent stamps to Dr. Pierce, Invalids' Hotel, Buffalo, and a trial box will be mailed you.

### EDVIN'S CAFE

An Oriental Cafe with immaculate service. It has been the desire of the manager to serve the true Oriental dishes, cooked with great care and delicacy, so as to be most palatable.

This cafe is truly Oriental, and the management is endeavoring to make this the handsome place on the coast. Special attention given to Automobile parties and families.

## Hawaiian Life and Social Problems Charminglly Shown in Tully's Bird of Paradise

Richard Walton Tully's "Bird of Paradise" was presented at the Hulton opera house last night before a large audience. It deserved enthusiastic applause, and received \$1. All of its acts were good, but—unlike the most of today's plays—each act was better than the preceding.

The story is a simple one, that of the love of Luma, an Hawaiian girl, for Paul Wilson, an American doctor. He marries her and, losing ambition and manliness, becomes in two years as lazy and worthless as the natives. Meanwhile, Luma, who had come to the islands with Dr. Wilson, meets Dean, a good-for-nothing "white man," awakens his better self, and ultimately marries him. The purpose of the play—if it has one—is to show the effect of tropical life on a man of weak character, and the tragic results of intermarriage between the American and Hawaiian.

The first act takes place in a beach-cave on the Puna Coast of Hawaii. Beautifully and correctly staged, it is mainly worth while for the music and dancing. An incoherent mixture of psychology and tropicisms, it is a poor play. The scene between Diana Larnal and Dean, the beach-comber, where she calls him from his aimless life to go with her to aid the lepers, is the poorest bit in the play. Written like a sermon and spoken with the fire of a grammophone record, it is wholly unconvincing. The best scene was the hymn singing of the natives. The latter were enjoyed to lay off from labor and enjoy the sunshine, singing pagan songs. The substitution of hymns was fitting to sing a hymn and suggested, as appropriate, "Work, For the Night is Coming!"

The second act aroused a real and increasing interest. The scenes between Wilson and Luma were excellent, too, in which Luma refused to be a queen for a few days with her husband, the prayer to be, at the end, was effective, but lost in dignity because of its nobility.

Best of all the play was the first scene of the final act. Laid in the garden of a villa at Waikiki Beach, it presented a beautiful, moonlight setting. Luma's trouble with her American dress was amusing, but somewhat overdone. (One forgets every flaw, however, in recalling Miss Ulrich's interpretation of Luma at the end of the scene. Cast off by her desperate husband, Luma gives herself for a sacrifice to save her people from an angry God. From the moment she knew herself abandoned until the curtain fell, it was great, great, great. The two closing scenes were in the nature of tableaux, picturing in effective manner, Luma's death.

The support was ordinary; it marred much the play by incoherent delivery. On the other hand, Miss Larnal proved herself a fine actress, and for a few moments, at least, a very great one.

The "Bird of Paradise" will be generally considered one of the most interesting and meritorious plays seen in Fresno for many a moon.

## FIRST SHIP FROM NOME SINCE STORM

### Little Destitution in Stricken City Declares Captain

SEATTLE, Wash., Oct. 23.—The steamship Victoria, the first passenger boat from Nome since the great storm, arrived today with 415 passengers. All paid their fare and practically all would have come out even if there had been no storm.

Captain John O'Brien of the Victoria says there is little destitution in Nome. Only one person was drowned in the storm, a miner named Morrison. Five lives were lost on the schooner Norm, wrecked fifteen miles from Nome.

Among the Victoria's passengers were Captain John Buckland, the noted Arctic trader, and two of his men, who after the launching of the schooner Transit near Cape Smyth, Alaska, August 25, made their way to Kotzebue sound in a whaleboat, 500 miles. Captain Buckland expects to save the Transit next summer.

### CHILD IS KILLED; AUTOIST ARRESTED

LOS ANGELES, Oct. 23.—Paul Hinkley, a well-to-do automobile dealer, is in jail tonight charged with manslaughter, a two-year-old child is dead and a youth is suffering from serious injuries as the result of a collision between Hinkley's automobile and a bicycle.

Verne Timber, 15 years old, was riding a bike with his brother, George, aged 2, on the handle bars when the accident occurred. The child was killed instantly. Hinkley is alleged to have been driving his machine in excess of the speed limit.

### MAYOR COMPLAINS OF JUDGE'S ACT

#### Says Seattle Is Now Suffering From Government By Injunction

SEATTLE, Wash., Oct. 23.—Mayor Cottrell voiced a protest today against "government by injunction," because the police were restrained by a writ issued by Superior Judge Kenneth Blackinton from preventing the exhibition of moving picture films disapproved by the city board of censorship. A warrant charging him with the exhibition of improper pictures had been obtained from Judge Levy, manager of the theater. Levy could not be found, however, after he obtained the injunction.

"In all fairness, I submit," said Mayor Cottrell, "that the court should have had an immediate hearing in this case instead of closing the date for hearing as October 30, five days after the conclusion of the engagement of the picture show here. Under government by injunction, if a 'movie' were a hundred-fold worse than this the censors would be powerless to stop it."

### REBELS TRYING TO TAKE MONTEREY

MEXICO CITY, Oct. 23.—Fighting is reported to be in progress in the outskirts of Monterey. Rebels are said to have made a dash into a suburb and taken possession of some of the outlying positions.

The attack on Monterey began this morning, the first shots being fired about 10 o'clock. Shortly afterwards the telephone lines were cut and communication ceased.

### FORTY-FOUR DROWN IN THE BALTIC SEA

HERNORAND, Sweden, Oct. 23.—The steamer Westkusten, which left Vasa, in the Gulf of Bothnia, yesterday afternoon in a gale, ran on a reef a few hours later and forty-four persons were drowned. A single survivor was picked up by the steamer Karl Von Linné and landed here tonight.

The crew succeeded in launching a boat, but the steamer sank in a few minutes. The boat was swamped.

Several of the crew clung to the rigging but with one exception all succumbed to the cold and exposure during the night.

### SUCCESSOR TO FILCHER

SACRAMENTO, Oct. 23.—After halting unsuccessfully for a month, the city commission today broke the deadlock by unanimously selecting Henry Elliott as commissioner of finance to succeed J. A. Filcher, resigned. Elliott was a compromise candidate.

## YOUNG MAN LOSES LEG UNDER TRAIN

### E. E. Womshor falls beneath Car While Stealing Ride to Fresno

While trying to jump on a San Joaquin & Eastern train and steal a ride to Fresno, E. E. Womshor, age about 30 years, fell beneath the car wheels yesterday in Aubrey Valley and his left leg was so badly mangled that it was amputated yesterday afternoon by Dr. C. P. H. Kierling at the county hospital. The physician took the patient from the train at Piedra and brought him to Fresno in an automobile. Womshor says his home is in St. Louis and he had been in the mountains looking for work. Being unable to find employment he was stealing a ride to Fresno when the accident took place.

### ST. JOHN'S CHURCH SOCIAL THIS EVENING

A basket social and dance will be given this evening at Parish hall on I street by the young women of the St. John Catholic church. Arrangements for the social were completed at a meeting of the young women Wednesday evening. Members of the church and all friends are invited to attend the social. The young people guarantee a good time to strangers in Fresno.

### FEDERAL INDUSTRIAL COMMISSION ORGANIZES

#### Harris Weinstock of California Is One of the Members

WASHINGTON, Oct. 23.—The new federal industrial commission, empowered by Congress to inquire into economic conditions in the United States, held its first meeting here today and elected Frank P. Walsh of Kansas City, permanent chairman, and Professor J. R. Commons of Madison, Wis., temporary secretary.

Mrs. J. Borden Harriman, of New York; Frederick A. Delane, of Chicago; Harris Weinstock, of San Francisco; S. T. Ballard, of Louisville, Ky.; John B. Lannon, of Bloomington, Ill.; James O'Connell, of Washington, and Austin B. Garrison, of Iowa, the other commissioners, all were present.

The commission was addressed by Samuel Gompers, president of the American Federation of Labor, who expressed the hope and belief that with the powers conferred on it, the body would be in position to accomplish what many previous commissions had failed to do. Frank Morrison, secretary of the Federation, and Julius E. Cohen, of New York, also spoke.

Later the commissioners called on President Wilson, who addressed them briefly.

### RECEPTION IN HONOR OF ST. PAUL OFFICIALS

Rev. Harold Goveite, newly appointed elder for South Methodist churches, and J. A. Walsh, the retiring elder and newly appointed pastor of the St. Paul's Methodist church, will be the guests of honor at a reception next Thursday night in the church. The affair is in the hands of the Epworth League, the Philathea and the Baracca classes. A program will be prepared, following which a banquet will be served. William Glass will act as toastmaster.

The following will represent the various departments of the church: J. W. Lindsay, church at large; Mrs. Lane, Missionary society; Mrs. W. L. Cullins, Epworth society; Mrs. Baracca, Philathea society; Harry Long, Epworth League; Miss Ira Chandler, Junior League; Carter, Baracca class; Mrs. Maupin, Philathea class.

### LEASE M. E. CHURCH FOR SCHOOL BUILDING

#### Trustees Grant Permission for Five Days Each Week; Pastor Favorable

For five days each week Grace M. E. church will be turned into a school room. At a meeting of the church trustees last night a request from the board of education for the building was complied with. The lease will be signed at the meeting of the board this evening. E. Guy Talbot, the newly elected pastor, who arrives Saturday, favors the move.

Owing to the crowded condition of the Jefferson school, the sixth grade will be transferred to the church building. This was the only step, according to the school board, which would prove satisfactory. The arrangement is a temporary one.

The church trustees appointed a committee of two to confer with the playground committee with the view of having only one baseball diamond just north of the church as the playground for the church members on Sunday afternoon.

The following attended: Wilbert Smith, Robert H. Nicol, Kell, Peter Back, Mesdames G. W. Cartwright, Matrener, Alchra, Hawking.

### FIND DYNAMITE NEAR SITE OF COURTHOUSE

KLAMATH FALLS, Ore., Oct. 23.—Children playing today close to the new court house in process of construction found about fifty pounds of dynamite in the main canal of a reclamation project. The police removed 242 sticks, scattered for a distance of half a block.

For years the new court house has been the center of a bitter political fight, which culminated last spring in an unsuccessful attempt to recall County Judge William S. Worden, who ordered the court house built on the site its foundations now occupy.

# California Oil Field News

## MORE FIRE IS SHOWN IN FLAMING GUSHER

Believe It Is Being Fed By  
Gas; Plan to Turn On  
Steam By Friday

TAFI, Oct. 23.—The flaming gusher of the Kern Trading & Oil Co., on section 27, 31-23, which came in last Saturday, is giving forth much more fire and less smoke than at any time since its inception. It is believed that this is because of less oil flowing from the well, and much more gas. The gas sand was passed through by the drillers at a depth of about 2000 feet, and it is the belief that the heavy flow has worn away the formation a half mile in the earth until the gas has broken in.

A crew of men started work yesterday on the tunnel to the side of the hill, in the hope that the pipe will be reached by night. The boilers to be used in the getting up of a big head of steam are rapidly being installed. They may be brought into use by Friday.

Heavy advantage from shields are being made for the men who are to manipulate the steam lines in order that they may be protected from the intense heat.

What will happen when the steam is turned into the burning center is the cause of much conjecture. On the Pacific Coast, well there was practically no crater and the pressure was so great that the fire was at times some feet above the ground. This gave an opportunity to cut off the flames.

This is hardly possible with the present blazing spouter. Because of the fire seeming to come almost from a boiling pot of oil. The turning of the steam into this condition, it is believed, by some, may scatter the fire and cause trouble for other operators in that vicinity to care for their rigs.

Much hope is being expressed, relatively to the tunnel and what it may do toward shutting down the flow partially or entirely that the flames may not have the enormous supply of escape gas and oil to feed upon.

It's A Mistake

Made By Many Fresno Residents.

Many people in a misguided effort to get rid of kidney trouble, rely on plaster, liniments and other makeshifts. The right treatment is kidney treatment and a remarkably recommended kidney medicine is Doan's Kidney Pills. Fresno is no exception.

The proof is at your very door. The following is an experience typical of the work of Doan's Kidney Pills in Fresno.

F. E. Smith, railroad switchman, 1048 Q st., Fresno, Cal. "I was subject to dull pains in the small of my back caused by weak kidneys. I had reason to believe the trouble resulted from jumping off and on cars. At night I couldn't rest. When I heard of Doan's Kidney Pills, I got a box and they were just what I needed. They acted directly on my kidneys and brought me great relief. I will never have any hesitation in telling what Doan's Kidney Pills have done for me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## SPRECKELS COMPANY BRINGS IN FINE WELL

No. 5 Comes In At Maricopa  
Under Control; Is Best  
Well for Many Weeks

MARICOPA, Oct. 23.—The Spreckels Oil Company brought in one of the best wells on the Maricopa flat Tuesday at noon when the No. 5 well was brought in under perfect control with a flow of 3,000 barrels per day through a one-half-inch nipple. The well is showing more gas pressure than any other well in the Midway or Sunset fields registering over 550 pounds to the square inch. The oil is of 23 gravity, and is being run into a tank which is connected with the Standard Oil Company's pipe line. It was finished at a depth of 2450 feet into the big sand known as the Wilhelm sand, which is found only under sections 11-23, and 22, 12-23, in that part of the flat.

Many oil men have viewed the well and are of the opinion that it is the strongest well that has been brought in in the Sunset field, and that if the oil was allowed to flow free it would do fully 12,000 to 15,000 barrels. It was brought in under the supervision of Supt. R. J. Lepper, and Mr. Pollack, who is the personal representative of the owners in the field.

## TAFI CONTRACTOR IS STILL MISSING

TAFI, Oct. 23.—The fate of W. P. Seymour, the building contractor, who mysteriously disappeared late on the night of October 10, is still as much in doubt as when his absence from his usual place of business was first discovered, and his friends are becoming more fearful that he has become the victim of enemies or thugs. As yet nothing in the nature of a motive for his disappearance, or for taking his own life, has been found. On the other hand, his financial conditions are in good condition. A canvass of his creditors shows that he is in good standing with them. His account at the National Bank of Lakefield had not been touched and he left his field. His closest associates and friends have no knowledge of any enemies. On the day of his disappearance he was seen in Lakefield slightly intoxicated. At 10:20 he cashed a check at the Hotel at \$75. A few minutes later he walked out of the place with the money in his pocket and has not been seen by friends since.

## A New Principle in Complexion Treatment

(From Society World)

Most creams are injurious when used habitually. They clog the pores and eventually form a permanent, soggy, stuffy film which interferes with eliminative action and makes the skin sickly and pasty. There is an application—mercurized wax—which acts upon an entirely different principle. While perfectly harmless, it has the peculiar property of removing by absorption the dead and half-dead particles of skin, as well as unhealthy matter in the pores. Thus it takes away from instead of adding to the complexion, differing in this respect from cosmetics. The result is a perfectly natural and healthy young complexion. After a bath, procurable at any drug store (one ounce is sufficient), is applied at night like cold cream and washed off in the morning.

The correct principle in the treatment of wrinkles is to lighten the skin, which naturally firms out the lines. A face bath, remarkably effective in this direction, may be made by dissolving 1 oz. powdered sallolite in 1-2 pt. witch hazel.

## TOTAL PRODUCTION IS ABOUT THREE BILLION

Output Since 1859 Would  
Fill Lake 5 Feet Deep  
150 Miles Square

LOS ANGELES, Oct. 23.—Production of oil in the United States since the inception of the industry in 1859 has totaled 2,520,351,335 barrels, valued at \$2,325,217,138, according to figures compiled by W. M. Dillingham from records of the geological survey and recently published in the Oil and Gas Journal. Enough oil has, therefore, been produced in this country to fill a lake about 150 miles square to a depth of five feet.

The average value per barrel of all the oil produced in the country since the inception of the industry has been about 92 cents. The highest value per barrel in the United States has been produced in this country to fill a lake about 150 miles square to a depth of five feet.

The increase in production during recent years has been very rapid. The output of 1913 was about 150 per cent larger than the output of 1902, while the increase amounted to only about 40 per cent the preceding ten-year period. The production of the country first passed the 100,000,000 barrel mark in 1902.

It is rather an interesting fact that California shows every indication of nearly attaining the same mark this year. The production of the country last year was over 22,500,000 barrels, California furnishing about three-sevenths of the total. The effect of this state's great output is seen all through the production of the country in recent years.

The daily average value of the oil produced in the country last year was \$449,554, not so much short of the half million mark. It compares with a daily average value fifty years ago of a little over \$2000. The daily average value of production the first year of the industry was 438.

## AVERAGE DAILY OUTPUT IS 610,000 BARRELS

The daily average production of the first year of the industry was six barrels, about as much is produced by some of the smallest wells in California. The daily average output of the country last year was nearly 610,000 barrels. The total value of oil produced was \$151,987,412.

## DEVELOPMENT NEWS OF MIDWAY FIELDS

TAFI, Oct. 23.—The No. 1 well of the Branch Oil Company, on section 3, 11-23, which is being drilled into again, began gushing salt water at the rate of 10,000 barrels per day. The Northern Exploration Company 2nd, another this morning during the past week in drilling for gas, on section 16, 32-24, when oil was encountered. Three hundred feet of perforated pipe is being run into the

## ROYAL-DUTCH-SHELL TO TAKE OVER MAYS

Deal Is About Completed;  
Price Said to Be In Sum  
of \$1,050,000

TAFI, Oct. 23.—That the Royal Dutch Shell will enter the Midway field in the near future by taking over properties of the Mays Oil company has become a certainty. At a meeting of the stockholders held in New York city on Monday, October 20, the sale was generally approved by all, with the price placed at \$1,050,000.

As yet the proper papers have not been drawn up to protect the interests of the Mays company. This matter has been delegated to the board of directors. Several unsettled matters relative to terms are also to be gone into, but the general belief expressed is that it has been finally decided. The board of directors will hold authority to accept or reject the final papers submitted.

The following telegram received from Poveril Meigs, Jr., secretary of the Mays company, with offices in New York city, states the salient moves made at Monday's meeting:

"New York, Oct. 21, 1913. 'Stockholders approved sale generally to American Gasoline company for one million fifty thousand, but subject to drawing of proper papers to protect the interests of the company, and delegation to board of directors of matters relative to terms or otherwise, with authority to accept or reject final papers submitted.'"

The deal when consummated will give the Royal Dutch Shell, of which the American Gasoline company is a subsidiary, control over 250 acres of land located on sections 28 and 30, 31-23, in the North Midway. The greater part of this land is in gusher territory, with five of the wells drilled, on section 28, 31-23, by the Mays coming in as gushers.

The property immediately adjoining that of the Kern Trading & Oil Company, where the big gusher is now burning. The No. 3 well of the Mays, which has just been finished, is reported to have flowed at the rate of 15,000 barrels daily when thrown open. This heavy flow brought in the sand, causing it to bridge. It was being cleaned out when the Kern Trading & Oil company gusher caught fire. Work has been suspended because of the danger from the flames.

The report made a week ago relative to the movements of the Royal Dutch Shell in the Midway was received in most part by oil men in a skeptical manner, but those conversant with the belief that the Mays are now willing to believe that the best deal was made without a hitch, and that the big company will begin active development of the excellent property it is now acquiring. The purchase of this property, coupled with that of the California Oilfield, puts the foreign interests in a position of importance, for its production will more than equal that of the General Petroleum company at the present time. It appears that the big combine is preparing for a widespread competition in this country, as is shown by these purchases, both of which have been considered good by those with a knowledge of the leases. It is not at all improbable that England will be one of the markets for Midway oil soon, because of this deal, and because of the opening of the Panama canal. It is understood that the Royal Dutch Shell is returning to making its purchases in this state because of the fact that the tendency in Great Britain is continually to increase the consumption of fuel oil.

hole with preparations being made to finish it up.

The No. 1 well of the St. Helens Petroleum Company, on section 22, 31-24, which is down 3100 feet. The No. 3, on section 16, 32-24, is down 1075 feet.

Land has been leased out from the King Lumber Company for the No. 4 well of the Caribou Oil Company, on section 28, 31-23.

Two wells of the Universal Oil Company, in the Lost Hills field, have been cemented by the Perkins Cementing Company in the past week. They are the No. 11 and the old No. 1. The No. 11 has the 10-inch leader in 1544 feet. Five tons of cement were used. The No. 1, which has been re-drilled, has the 8-inch down 1257 feet. Two tons of cement were used.

The No. 5 well of the Maricopa Queen Oil Company, on section 22, 12-23, went into the famous Wilhelm sand Monday morning and a half hour flow at the rate of 3,000 barrels daily. It then sanded. Preparations are being made to clean it out and bring it in under control that the sand bridge may be held back with the pressure cut down.

The No. 2 well of the Universal Oil Company is preparing to follow in the footsteps of other companies in the Midway who have discarded gas and steam for pumping, and have instead installed electric motors. The first motor for pumping on North American properties was purchased during the past week. It is to be installed on section 16, 32-24.

Indications are that the production of the Universal Oil Company, in the Lost Hills field, will be more than one-half that of the entire territory for the month of October. Conservative figures place the production of the company for the month at 157,000 barrels.

## FRAM TO PASS THROUGH CANAL IN DECEMBER

SAN DIEGO, Cal., Oct. 23.—Captain Rolf Amundsen, Arctic explorer, has written a letter to Mayor Charles F. O'Neill of San Diego advising him that his exploration ship, the Fram, will pass through the Panama canal in December of this year and will visit San Diego on its way to San Francisco. Lieutenant Hans Nilsen of the Norwegian navy commands the Fram.

THREE MURDER ARRESTS  
CHICAGO, Oct. 23.—Five persons declared by the police to have been implicated in the triple murder incident in the robbery of the jewelry store of J. J. Thompson at Grand Rapids, Mich., September 15, were arrested here today.

The prisoners are Roy Blackburn and his wife, Rose; Dennis Klemann and his wife, who were with him at the time being, were withheld.

## REBELS KILL OFF MEXICAN VILLAGERS

Fifty Die In Defense of  
Church Against Party  
of Looters

MEXICO CITY, Oct. 23.—Revolutionists yesterday murdered the entire population, numbering about fifty, of the village of Cherran Atzacur, in the state of Michoacan, while they were defending the village church against looters. The villagers fought until their ammunition was exhausted and then used machetes, stones and clubs to beat off their assailants, but they were eventually overcome and killed and the village was burned to the ground.

Rebels are reported to have tortured Lieutenant Jose Bracamonte and two soldiers belonging to a small federal garrison stationed near Camerun, south of Nuevo Laredo, after having killed the remainder of the federal troops. The rebels are said to have skinned the soles off of the feet of their three prisoners, walked them several miles and then beheaded them with machetes because they refused to shout for Carranza.

## When You Catch Cold

Sneezing is nature's device for restoring impaired circulation, and the condition of the system which favors taking cold is not one of perfect health. The circulation at the time is feeble and the blood itself is not in a perfectly healthy state. It takes a long time to get the system into a healthy condition, and a draught of cold air, at length an influence on the nerve is exerted and then comes the chilliness and other symptoms due to derangement of the action of many tissues and organs of the body, which mark the invasion of illness. Duffy's Pure Malt Whiskey not only obviates the danger of taking cold, but acts as a general systematic tonic which has lasting benefit. If every man and woman would only appreciate what this great family medicine does toward building up the system by strengthening the digestive organs and quickening the circulation so as to prevent a cold or other form of congestion from becoming deep rooted, ninety per cent of the illness could be avoided. Duffy's Pure Malt Whiskey is very wholesome, appetizing and strengthening, especially in the fall and winter when influenza and other colds are so prevalent. At such times will ward off serious and oftentimes fatal attacks of bronchitis and pneumonia, as well as irritating coughs and colds. It is prepared, not Duffy's today. At most druggists, grocers and dealers. \$1.00 a large bottle.

**Hand Tailored Garments**  
Fully Guaranteed at  
**\$15.00**

Every suit or overcoat we sell is strictly all wool; every garment is hand tailored in the fullest sense of that term. ## Interlinking Talking Circles

EACH Bell Telephone is the center of a talking circle to which there are no arbitrary boundaries within the limits of speech transmission.

Each central office is a clearing house for telephone talk extending far beyond its own system.

Universal communication means not only intercommunication between subscribers in the same exchange system, and with those in other exchange systems, but also long distance communication with each connected telephone in the Bell system within speaking distance.

There are over 7,500,000 interconnecting Bell Telephones, each an open door for telephonic communication, uniting a nation of 92,000,000 people and promoting the happiness, the welfare and the prosperity of all.

## Every Bell Telephone Is a Long Distance Station

**THE PACIFIC TELEPHONE  
AND TELEGRAPH COMPANY**

## KITTY GORDON, WITH HER CHARMING PRESENCE, MAKES FIRST APPEARANCE IN FRESNO TONIGHT

KITTY GORDON IN "THE ENCHANTRESS"—AT THE BARTON TONIGHT.

With the chic and beautiful Kitty Gordon in the title role, "The Enchantress," one of the liveliest and successful musical comedies ever written by the prolific and versatile Victor Herbert, will have its brilliant unveiling by Joseph M. Galtes' remarkable production at the Barton tonight.

This engagement, since it was first announced, is the most talked about attraction of the current season, and

## NAVAL DRAMA IS PRINCESS FEATURE

"Victory," a film in five masterful parts, which has been truthfully heralded as the world's greatest spectacular war drama by government officials, is the feature of the new program at the Princess theater. The entire picture has been produced with the co-operation of the United States navy and no less distinguished personages than Josephus Daniels, secretary of the navy; Admiral Badger, commander-in-chief of the Atlantic fleet; Commander Benson and many other officials of the navy have an acting part throughout the entire production.

The story woven around the thrills and deeds of daring which are vividly depicted in the five reels is deserving of special commendation. It is exceptionally well played throughout even in those characters of the distinguished officers which were portrayed by themselves. The ensemble numbers of the production in which the center action is always the sailors or marines, are well handled in every instance. Particularly well done are the scenes of the battle boats on the death-dealing war hydroplanes, the views of their rising and approach of the water, the dropping of bombs on the men of war, the battle of the forts and the work of the aeroplanes attacking the main.

The exploding of full-charge harbor mines, throwing columns of water more than 300 feet into the air, the destruction of the forts with shot and shell, the hand-to-hand encounters are most realistic. The five-reel thriller is a blood-curdling plot to blow up the American fleet in the Cuban harbor. Then there is a woman in the case who defies the plot and exposes to the navy aviator. With true patriotic spirit the navy aviator does a 100-mile flight, reaching the fleet just in time to save it from the terrific mine explosion. Of course, he wins the hand of the heroine. This film will be shown for the remainder of the week and at the free children's matinee Saturday, when the children of the county orphanage will be guests at the theater.

The excellence of the vaudeville program is in no wise marred by this magnificent picture. The Four Van Sights, who appeared here four years ago, are back again in "An Old Dutch Musical," an exquisite scenic act. The Van Sights are accomplished instrumentalists as well as vocalists and their voices blend harmoniously. The musical sketch is cleverly constructed and a most pleasing act. The Frisco Duo, sensational and artistic cyclists, have an excellent act, and Dorothy Lyons & Co. in the delightful sketch, "A Modern Annanias," score a hit.

princess by birth, thereby ending the story happily. There's always something about Victor Herbert's opera that's a little better than the work of other modern composers. One leaves the theater with the feeling that he has heard wholesome music, and as usual, when Herbert's music is played, there's one song that stands out—a sort of haunting melody. "Come, Little Fishes," "Rose, Lucky Rose," "All Your Own Am," "Art is Calling Me, I Want to Be a Prima Donna," and "The Land of My Own Romance," contain melodies that will be remembered for a long time. Mr. Galtes' positively surrounds Miss Gordon with the same \$50,000 production which amazed the patrons of the New York theater when the piece received its premiere. Unless all signs fail, this engagement will be the banner number of the current season.

## Mother's Friend in Every Home

Comfort and Safety Assured Before the Arrival of the Storm.

In thousands of American homes there is a bottle of Mother's Friend that has aided many a woman through the trying ordeal, saved her from suffering and pain, kept her in health in advance of baby's coming, and had a wonderful influence in developing a lovely disposition in the child.

There is no other remedy so truly a help to nature. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant those fibres and muscles which nature is expanding and soothes the inflammation of breast glands.

Mother's Friend is an external remedy, and not only banishes all distress in advance, but assures a speedy recovery for the mother. Thus she becomes a healthy woman with all her strength preserved to thoroughly enjoy the rearing of her child. Mother's Friend can be had at any drug store at \$1.00 a bottle. Write to Bradford Regulator Co., 228 Lamar Bldg., Atlanta, Ga., for their free book. Write today. It is most instructive.

## "The Trail of the Lonesome Pine"

Klaw & Erlanger have booked Eugene Walter's play, "The Trail of the Lonesome Pine," with Charlotte Walker at the Barton next Tuesday evening, October 28. The play is founded on the novel of the same name by John Fox, Jr. Mr. Walter tells the story in four acts, using nine characters. The first and fourth acts are laid under the lonesome pine. The playwright has condensed the time of the unfolding of the romance of June Tolliver and Jack Hale, but increased the reality of action. The first act closes with June, the little barefoot mountain girl, on her way to school. In the second act she learns that Jack is not thinking seriously of marriage, she believed to be inevitable, and returns to the mountains. The third act thrills with the love story of June and Jack Hale and the suppression of the feud, aided by the awakening of June to the indifference between the duty of love and the duty of the law resulting in the union and marriage of the most delightful book characters ever conceived by a modern author in the last act. Klaw & Erlanger have given the play a magnificent production, the mountain scenery being especially beautiful. The seat sale opens tomorrow morning.

## BEARS, ACROBATS AND SINGERS COMPETE FOR FIRST HONORS ON EMPIRE'S NEW BILL

CITY QUARTETTE—FEATURING AT EMPIRE.

There's one of the best balanced bills at the Empire that has been given for a long time. It is a bill that is excellent in every respect and that it pleases is well evidenced by the hearty applause that rewards each act.

It is opened by the Ehrenfeld Duo with a comical acrobatic pantomime. Their work is good, for this duo has a number of new feats. Their tendency are well liked for their tricks are much applauded. There's an act that will make a big hit with the children. This is Princess Victoria and her quartet of trained bears. "These clever little animals for they are small bears and as cute as they can be have many pleasing tricks. Princess Victoria has a little playground for them, and they enjoy themselves in many ways. They slide down a slide, play on a "teeter" board, turn somersaults, etc. One of them balances himself on an

immense wooden ball and propels it up an inclined plane and back again. "A Minnesota Romance" is the humorous skit being offered by Emily Green & Co. Miss Green is a very talented character actress and her impersonation of a Swedish servant girl impersonating her mistress is keenly funny. Miss Green is supported by thoroughly capable people and her playlet makes a good impression. It is full of humor without being boisterous, and is very much enjoyed.

White is black and brown is white in the black-face comedy "A Lesson in Filtrating," given by White & Brown. Mr. White has a lot of original stories and jokes and some very clever parodies on popular music which he has written himself. This pair of funmakers are favorites and there is plenty of applause and laughter. They have just finished an S. C. engagement before coming to Fresno.

The City Quartette is composed of two male voices and two female voices which blend together in a manner that makes their singing entirely enjoyable. They sing high-class songs.

Jack has the best picture he has shown for a long time. It is a love-story picture "The Gypsy Queen," and is extremely realistic. The blowing up of a bridge, precipitating a number of men into the water is just one of the many remarkable scenes.

Saturday afternoon there will be a free matinee for children, all of them being guests of the Manager. These, whether accompanied by parents or alone. Mrs. Hesse will be there to look after the wants of the little folks. The free matinee the last Saturday of each month is a custom that was begun last year by the Empire. It begins at 2 o'clock.

## CHORUS CONTEST MAJESTIC OFFERING

Much Interest Attaches to Weekly Feature of F St. Theater

Tonight is the big night in the estimation of those who attend the Majestic. For tonight is Chorus Girls' Contest night at the theater on F street between Tulare and Kern. This is a regular week event that has created more and more attention each week since this house has been opened by the Gaiety Musical Comedy Company. Each of the girls has something special for tonight, and these features are unusually good.

It is left to the girls to select whatever they want. It may be a dance, a song, or any vaudeville stunt that will make fun or amuse the crowd. Generous prizes are given the girls who are most popular.

The regular bill for tonight is "Faded Mashed," a comedy produced by Matt Burton. It has been attracting capacity houses since it opened on Wednesday night. Saturday afternoon there will be a matinee. On Sunday evening with the matinee "A Night in a Mad-House" will be the comedy. This is a play written by Mr. Burton from an actual occurrence witnessed by him during a visit to the State Insane Asylum at Stockton. It is full of hilarious comedy.

Ed Wright, the new black-face comedian, is making a host of friends. Fred Weiss continues to be popular as a Hebrew funmaker.

Charles Pollard is another new addition to the company who is making good. Edith Herzer, the subterfuge, aided by a competent chorus, is a favorite. After the matinee on Sunday there will be a wrestling match for the championship of the Valley. This will be between John Plumbo, the Italian champion, and Aram Joseph, champion of the Valley. There is a big purse and both of the men have hundreds of friends who will be present to cheer for them. This is one of the biggest sporting events that has ever been pulled off in the Valley and there is no doubt that the house will be jammed.

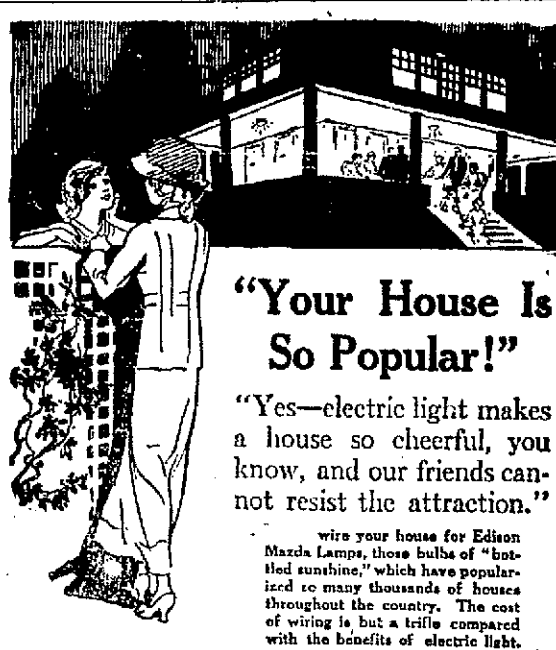

## BUT 2000 AMERICANS REMAIN IN MEXICO

SAN FRANCISCO, Oct. 23.—The transport Buford returned to San Francisco late yesterday from a relief trip to the west coast of Mexico. Ninety-one refugees, eighty of them Americans, were brought to this port, 155 refugees having disembarked at San Diego. Charles Jenkinson, special representative of the State Department and the American Red Cross, who was in charge of the expedition, said today that only 2000 Americans remained in Mexico.

The Buford brought word of the supposed loss of the Mexican steamer Curmen. The Curmen left Altata for Mazatlan, a day's run, four weeks ago, and is believed to have foundered.

AN EXCELLENT COUGH MEDICINE. The soothing and healing properties of Chamberlain's Cough Remedy make it especially valuable for coughs and colds. It is pleasant and safe to take and contains no narcotic.

ITCHING SCALP. Dandruff and itching hair can be stopped with Smith's Dandruff Remedy. Price 50c at all druggists everywhere.

"Your House Is So Popular!"

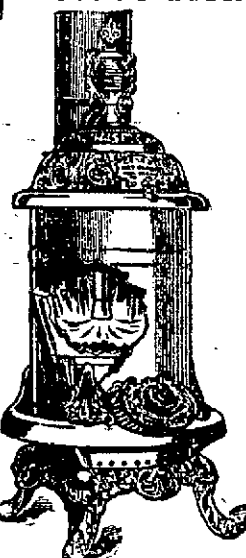

"Yes—electric light makes a house so cheerful, you know, and our friends cannot resist the attraction."

wire your house for Edison Mazda Lamps, those bulbs of "bottled sunshine," which have popularized to many thousands of houses throughout the country. The cost of wiring is but a trifle compared with the benefits of electric light.

San Joaquin Light and Power Corporation

M. E. Newlin, District Agent.

## Have a Cole's Hot Blast Stove Ready So the Cold Weather Won't Bother You

Of course cold weather will be here in a short time. There is a big storm in the East now. Winter has already set in.

Be ready for the cold wave when it reaches California. Have a Cole's Hot Blast heater all ready to light a fire in. Then the cold will not bother you.

We also have Cole's Wood Heaters, superior in every way. They are satisfactory and economical. A number of styles to select from.

Barrett-Hicks Co.

1031-41 1 St.

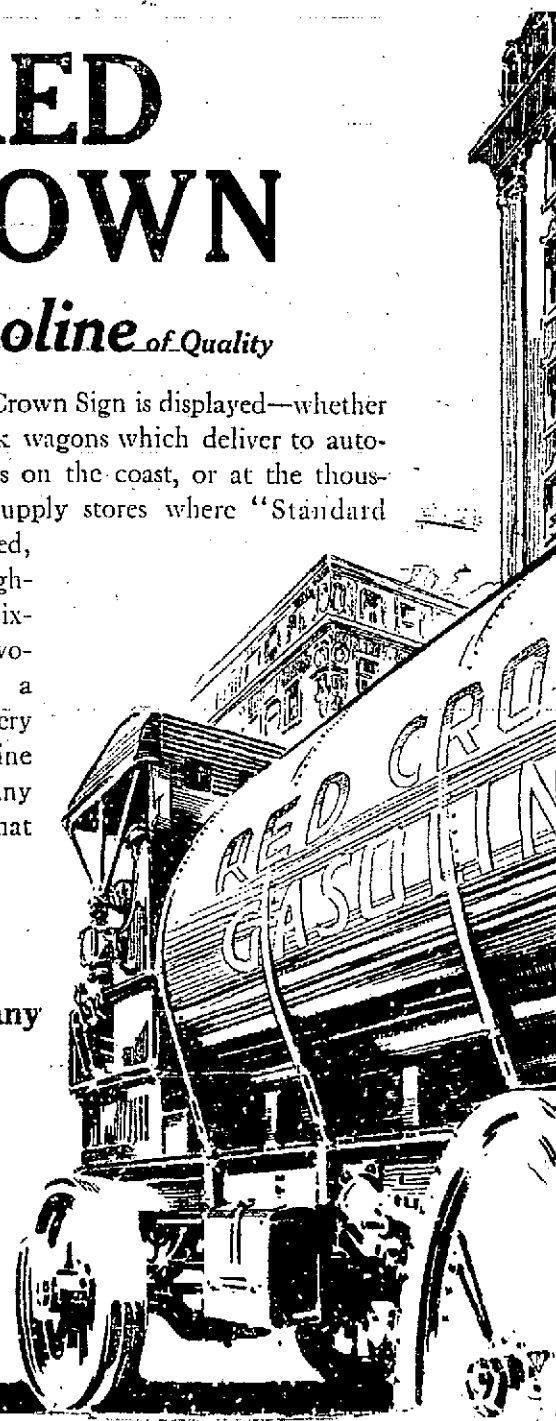

## RED CROWN

The Gasoline of Quality

Wherever the Red Crown Sign is displayed—whether on the Company's tank wagons which deliver to automobilists in all big cities on the coast, or at the thousands of garages and supply stores where "Standard Oil Gasoline" is handled, it indicates the same high-grade product—not a mixture; not a cent-or-two-less preparation, but a straight distilled refinery product—the best gasoline the Standard Oil Company can make—the kind that is cheapest in the end.

Watch for the Red Crown Sign

Standard Oil Company (California) Fresno

Here is what Marion Harland said in 1906 about Cottolene

"Many years ago, I discontinued the use of lard in my kitchen and substituted for it, as an experiment, Cottolene, then comparatively a new product. Since my first trial of it I can truly say that it has given complete satisfaction. I honestly believe it to be the very best thing of its kind ever offered to the American housekeeper."

MARION HARLAND.

Cottolene makes biscuits that are tender when they are cold—that is a sure test of a good shortening. Try it yourself. Make the biscuits like this:

BAKING POWDER BISCUITS

2 cups flour, 3 teaspoons baking powder, 1 teaspoon salt, 4 tablespoons Cottolene, 3/4 cup milk. Sift flour, salt and baking powder together; rub in Cottolene; mix lightly and quickly; mixture should not be dry; roll out on board, cut into small biscuits, bake ten to fifteen minutes in hot oven. To make biscuits richer, mix with cream. Whole wheat, graham or rye biscuit may be made in the same way.—Edith L. CHA.

THE N. K. FAIRBANK COMPANY CHICAGO

## Only Two More Days Remain to Bring Musical Club Membership Up to 100

THE FLONZALEY QUARTETTE THAT WILL PLAY BEFORE THE FRESNO MUSICAL CLUB EARLY IN THEIR SERIES OF WINTER CONCERTS.

For two more days, it will be possible for persons desiring to become members of the Musical Club to purchase tickets down town. Musical Club members having arranged to meet prospective members this afternoon and tomorrow afternoon at Bowman's Drug Store, hoping that the end of the week will see the addition of 100 members that are yet lacking to make up the desired number sought for in the recent strenuous membership campaign.

The announcement that Mrs. Francis Alda, with her assistants, Frank La Forge, pianist, and Gerald, violinist, will make her appearance in

the evening of November 3, will be received with much satisfaction. The concert will be given in the auditorium of the High School. One of the anticipated winter concert series in following during the winter's series in that of the return engagement of the Flonzaley Quartette who delighted a Fresno audience last season.

Their aggregation of musical instruments which has been gotten together at an expense of about \$60,000, lends a physical interest in their Fresno appearance. It took many years as well as much money to match the instruments in their various qualities, and the musicians are as particular in their choice of strings as they were in choice of instrument.

Even those familiar with the experience before the club members on

quintessence playing of the Flonzaley Quartette realize the value to which the members of this unique organization go to prepare for their concert. Quite aside from the weeks and months of daily practice, there are innumerable details calling for much careful thought and individual attention. For example, each of the members, and the first violin, Mr. Belli, in particular, devotes many hours each season to careful research in the great musical libraries in quest of unknown works, the determination of whose merits requires painstaking study. In the National Library in Washington, and in private libraries in Boston and New York, the musicians have been successful in unearthing several gems of musical literature.

## CATARRHAL TROUBLE ENDED—USE HYOMEL

You Breathe It—No Stomach Dosing—Clears the Head.

Use nature's remedy for catarrh or cold in the head, one that is harmless yet quick and effective.

It is the healing oils and balsams of Hyomel which you breathe through a small, pocket inhaler. This catarrh and antiseptic air reaches the most remote air cells in the nose, throat and lungs, killing the catarrhal germs, and quickly restoring health to the diseased mucous membrane.

Hyomel has benefited so many sufferers of the worst cases of catarrh, with offensive breath, ringing of the ears, frequent sneezing, droppings in the throat and spasmodic coughing, that it is sold by San Joaquin Drug Co., with a guarantee to refund the money if it does not do all that is claimed for it. A complete Hyomel Outfit, containing inhaler and bottle of liquid, sells for only \$1.00. Extra bottles of liquid, if later needed, 50 cents. Druggists everywhere sell Hyomel.

## May Help You If Lungs Are Affected

Proper diet, fresh air and temperate habits are beneficial to persons suffering from Lung Trouble. In a great many instances reports show that the addition of a medicine for this affection has actually helped in bringing about recovery. For more than fifteen years Eckman's Alternative, a medicine for Cough and Lung Trouble, has accomplished good results. Read what it did in this case:

"Gentlemen: In December, 1908, March, 1909, and September, 1909, I was taken with hemorrhages of the lungs which continued for several weeks, each time to my bed. My doctor advised me to go West. In November I started for Denver, Colo. After my arrival at Michael Brady, who, upon learning of my condition, urged me to take Eckman's Alternative. I kept on taking the medicine and improved fast. In a few days I was on my feet. I am entirely well, have a good appetite and sleep well. When I left Denver my weight was 120 pounds, now weigh 165, my normal weight. I thank God and your alternative for my health."

(Addressed) PAUL L. FASNACHT, (above abbreviated name on request.) Eckman's Alternative has been proven by many years' test to be most efficacious for severe Cough and Lung Affections, Bronchitis, Branchitis, Asthma, Stomach Colds and in rebuilding the system. Contains no narcotics, poisons or habit-forming drugs. Sold by leading druggists. Write the Eckman Laboratories, Philadelphia, Pa., for booklet telling of recoveries and additional evidence.

—Advertisement—

## SEA SERVICE BILL PASSES SENATE

Will Give More Freedom to Sailors from Harsh Conditions

WASHINGTON, Oct. 23.—The La Follette substitute for the Seamen's Severe Bill, so amended as not to affect the treaty relations of the United States until the President has been given an opportunity to readjust them, passed the Senate today at the end of a debate that was characterized by unusual proceedings. In the end, the debate became an eulogy of Andrew Furuseth, president of the Seamen's Union, who was lauded as the man chiefly responsible for the passage of the bill.

Senator Fletcher, chairman of the subcommittee in charge of the preparation of the seamen's bill declared the measure as passed by the Senate today would accomplish three important shipping reforms:

The giving of greater freedom to seamen, the promotion of greater safety at sea for passengers and crew, and the equalizing of the wage costs in operating vessels in foreign and domestic trade.

Efforts by Senators Bacon and Burton to amend the bill failed today.

Senator La Follette closed the debate on the measure with an attack on R. T. Chamberlain, United States commissioner of navigation, who, he said, ought to be removed. He declared Chamberlain had held office since President Cleveland's administration by "trimming and turning and twisting," but that all of his reports showed that his recommendations "fit into the interests of the ship owners."

Senator La Follette also charged that Congress and the executive department of the government for years had "shown a subservience to the shipping interests."

## ADMIRAL DRUG FIEND DECLARES DEFENSE

Mrs. Eaton Would Have Had No Motive for Poisoning Husband

PLYMOUTH, Mass., Oct. 23.—Rear Admiral Joseph G. Eaton, whose widow, Mrs. Jennie May Eaton, is on trial here charged with his murder, was pointed in the opening address of the defense today as a "drug fiend and a man of dual personality, a veritable Dr. Jekyll and Mr. Hyde."

Attorney Francis J. Geogan, who made the opening argument, said it would be shown that Admiral Eaton was addicted to the use of liquor and drugs to such an extent that he endangered his vessel and that the lives of the men under his command in the navy, he attributed, the death of the admiral to arsenic, self-inflicted. He said Mrs. Eaton would take the stand and tell the story of her life. "We will show you there was no friction between Mrs. Eaton and her husband up to the time of his illness," said Geogan. "There was no misunderstanding."

Geogan said it would be shown that the admiral left Mrs. Eaton nothing but a heritage of debts and that she could have no motive for desiring his death. On the other hand, he said, as a motive for keeping him alive, she had the fact that an income of \$1,500 a year representing the admiral's retired pay, ceased on his death. The defendant, the attorney added, would not hide behind a cloak of insanity.

Dr. F. Fremont Smith of Washington, D. C., the first defense witness, testified regarding the admiral's habits of intoxication at the time of his first illness and death. It developed in Dr. Smith's testimony that naval records show Admiral Eaton to have been afflicted with a disease for which arsenic and other drugs sometimes are administered.

## SHOWS ALL BALKAN NATIONS ATROCIOUS

Carnegie Commission to Make Inquiry Into Scenes of War

PARIS, Oct. 23.—Troops of all the warring Balkan states committed gross atrocities, according to the evidence gathered by the International Carnegie Commission in its searching inquiry into the Balkan war.

The conclusions of the Carnegie commission are to be published in book form with illustrations and facsimiles of a number of documents on which the book is based. In view of the commission's desire to present an absolutely impartial account of its investigations, the text will not be divided into sections written by individual members, but issued as a whole, for which all the members of the commission take responsibility.

One of the noteworthy tasks was the minute examination and verification by the commission of the famous pocket of letters from Greek soldiers captured by the Bulgarians, containing horrible descriptions of how Greek soldiers "avenged themselves" on Bulgarians who fell into their hands.

The commission believes that it has established the authenticity of those letters. Other documents testify that the Greeks occasionally made use of the forbidden dumdum bullet, and show also the misdeeds of Bulgarians and other belligerents. The inquiry did not extend to the Rumanians.

## TRAPPED BY POLICE IN ATTEMPT AT BLACKMAIL

LOS ANGELES, Oct. 23.—Thomas L. Cahill of San Francisco was trapped by the police tonight while engaged in one of the many alleged attempts to extort money from lodging house proprietors. According to the police, Cahill represented himself as a newspaper reporter assigned to expose improperly conducted rooming houses.

It is alleged that he threatened Mrs. H. Russell with exposure unless she produced \$100. Mrs. Russell agreed, claiming to have a home in the city. It is said Cahill returned and fell into the police trap.

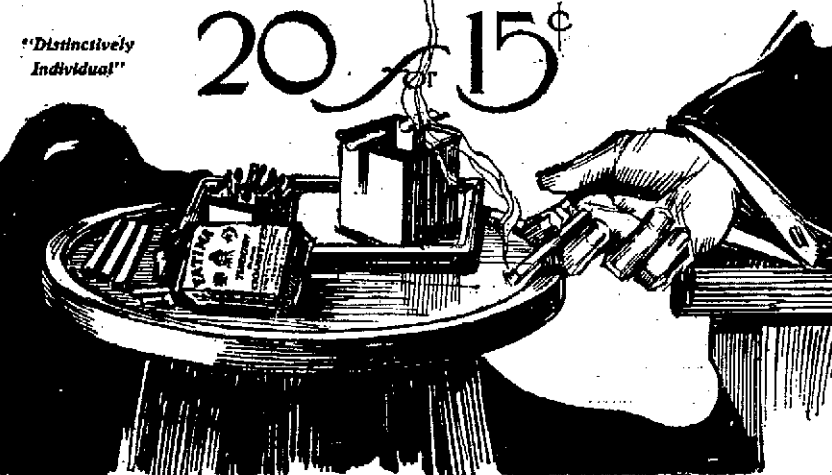

I wear the badge of quality which admits me into every club.

My company is always select, as the men who smoke me are the keen thinkers who are doing things.

I am a masterpiece—a Turkish blend of as pure and wholesome tobacco as ever grew.

Besides, my simple package means more smokes than were I packed in a fancy box for show.

I am FATIMA, the cigarette of the nation.

## EPISCOPALS JOIN UNION OF CHURCHES

Will Co-operate With Other Evangelical Organizations in America

NEW YORK, Oct. 23.—The House of deputies of the Protestant Episcopal church today established a rule that hereafter the presiding bishop of the church shall be elected. Under the custom now abandoned, the presiding bishop was selected automatically by seniority in point of service. The new method will go into effect upon the death or resignation of the present presiding bishop, Right Rev. Daniel S. Tuttle of St. Louis.

The lower house adopts resolutions placing the Episcopal church for the first time in its history within the Federal Council of the Churches of Jesus Christ of America and authorized the church to co-operate with other missionary bodies.

Frederick C. Moorehouse, a lay delegate from Milwaukee, introduced a resolution intended to authorize a committee to revise the list of gains in the Episcopal church so as to include, among others, American personages who have been dead longer than a century.

The diocese and missionary districts of the Episcopal church of America are to be grouped hereafter into eight provinces or synods, after the custom that prevails in the church of England.

## SCOTTISH RITE MASONS PLAN FOR A TEMPLE

WASHINGTON, Oct. 23.—The supreme council of the thirty-third degree of the Ancient and Accepted Scottish Rite Free Masonry for the southern jurisdiction spent most of today in executive session considering the awarding of the contract for the completion of the Scottish Rite Temple in this city, which is to cost half a million dollars. Members of the council today called at the White House to pay their respects to President Wilson.

An invitation from Masonic bodies in California to hold its next session in that state instead of Washington was declined with a resolution of thanks.

## SUFFRAGETS BURN COLLEGE PAVILION

LONDON, Oct. 23.—An "arsenal squad" of militant suffragets today set fire to and destroyed the Sports Pavilion of Bristol University.

## OLD FOLKS FIND CROXONE RELIEVES

ALL KIDNEY AND BLADDER MISERIES

Drives Rheumatic Pains Away. Few Doses Relieve Backache and Bladder Disorders.

Sleep disturbing bladder weaknesses, backache, rheumatism, and the many other kindred ailments which so commonly come with declining years, need no longer be a source of dread and misery to those who are past the middle age of life.

Croxone relieves all such disorders because it reaches the very cause of the trouble. It soaks right into the kidneys, through the walls and linings, cleans out the little filtering glands and cells, and gives the kidneys new strength to do their work properly. It neutralizes and dissolves the poisons.

An original package costs but a trifle and all druggists are authorized to return the purchase price if Croxone should fail in a single case.

## ANGELS AND OAKS FATTEN AVERAGES

Twenty-Five Safe Hits Registered During Nine Innings

LOS ANGELES, Oct. 23.—Oakland and Los Angeles players continued to fatten their batting averages at the expense of the pitchers today. The Oaks found Check for fifteen hits and eight runs, while Los Angeles piled up a total of ten bingles which counted for but three tallies.

The game was nip and tuck until the ninth inning, when Oakland scored it up with four runs. Check walked four men and did not have a strike out to his credit. Maloney fanned three, but did not issue a pass. Score:

## FRESNO SQUAD MEETS STOCKTON SATURDAY

Irving Toomey Will Make Trip to Stockton Instead of Portola

Fresno high school rugger leave Saturday morning for Stockton where they will contest with the Stockton high school. Captain Irving Toomey was named as a member of the Portola team but, because of the Stockton Rugby game was on tap, Toomey decided to make the trip to Stockton instead of San Francisco.

For the past three years, Stockton and Fresno have been rivals for the football honors. The Stockton team is in good condition and, despite the fact that they have not had the assistance of a rugby coach, it is believed that the team will give Fresno a hard struggle.

Gruskey, a fast man for Stockton in the backfield, is out of the game indefinitely and may not return this year. A number of new players have been worked in this year. All of them are new to the Rugby game but have shown marked improvement the past three weeks.

## ENGLISHMEN VISITORS IN PORTOLA GOLFING

Professionals Easily Leave Field In Play At Country Club

SAN FRANCISCO, Oct. 23.—Harry Vardon and Edward Ray, the English professionals, playing in the Portola

## POLICE REGULATION FOR MARICOPA RING WORK

MARICOPA, Oct. 23.—A new boxing exhibition ordinance was passed by the city trustees at a special meeting held last evening which will replace the old ordinance that has been in use since the city was incorporated. The new ordinance fixes a license fee of \$10 for every match pulled off and places the exhibition under the police regulation. The matches must be governed by the Marquis of Queensbury rules.

## HANSON TO MEET MISSOURI BOXER

Coalinga Boy Matched With Jess Clark for Fifteen Rounds

Vic Hanson of Coalinga has been matched to meet Jeff Clark, a negro, at Joplin, Mo., Oct. 27, in a fifteen-round bout. Hanson is now touring the middle west with his manager, Kid Winslow. Following the Joplin fight, Hanson will jump to Denver, where he has been matched to meet Greek Brown.

A Joplin sporting writer has the following to say concerning the arrival of Hanson: "Vic Hanson, the Pacific coast middleweight who is to meet Jeff Clark here before the Southwest Athletic club next Monday night, arrived in Joplin last night from Denver with his manager, Fred Winslow. Hanson has his first workout at the club this afternoon."

The California is fresh from a series of coast triumphs and his bout with Clark should prove the classiest card Joplin boxing fans have seen in many moons. Hanson is on his way to Pittsburgh, Pa., to meet Frank Klutas, a contender in the middleweight class.

Many an aspiring middleweight has taken the count at the hands of the San Luis Obispo fighter. And by the way, San Luis Obispo is not a terrible ring nickname that has been ascribed to Hanson, but it happens that the California town from which Vic hails bears that as a handle.

In his early career Hanson met "Gunboat" Smith and won. He has 20-round draws with Petroskey and Joe Thomas. His last scrap was a 10-round draw with "Kid" George at Salt Lake City. This was October 3. Newspaper accounts give Hanson the victory. In a previous meeting with George, Hanson scored a knockout. George is one of the best known men on the coast and gave Eddie McCarty a victory with "Kid" George at Salt Lake City. This was October 3. Newspaper accounts give Hanson the victory. In a previous meeting with George, Hanson scored a knockout.

Fred Winslow, the California's manager, himself formerly was champ of the Pacific coast. He has had Hanson under tow for three years and in this time has staged about forty contests for him.

There will be something at stake when Clark and the westerner step into the ring next Monday. Hanson, having had things his own way in the west, is making an entry into the east. The skills here would mean a none too triumphant entry, while a victory over Clark would give him something to talk about. Clark on the other hand is to get his first crack at a real, good white middleweight and promises to supply a good side of the argument.

golf tournament, easily defeated their opponents in two 18-hole matches over the San Francisco Golf and Country Club course today.

Playing in the morning Ray and Vardon defeated the best ball of Frank Verby, Charles Mac and Fred Reilly, the latter the club professional, 4 up 3 to play. The best ball of the Englishmen was 66, par for the course being 69. Vardon's individual score was 68.

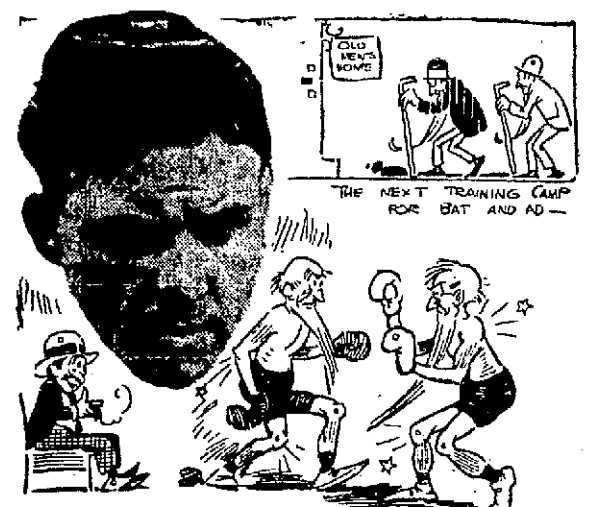

In the afternoon Vardon and Ray beat the best ball of Garby, Robin Haynes and Charles Tubbs, the latter formerly captain of the club, 7 up 5 to play. Ray and Vardon's best ball was 61. Ray's individual score was 66 and Vardon's 70.

## Will Battling Nelson Quit Ring After Wolgast's Victory

"BAT" NELSON "TEA PENCE" FAST AND FURIOUS ROUNDS OF THIS FOR THE FAN

The recent ten-round bout in Milwaukee between Bat Nelson and Ad Wolgast proved that neither one of these fighters of old is in good form. Neither is expected to "come back."

Four years ago on the Fourth of July Ad Wolgast won the lightweight title from Bat Nelson and Nelson has never felt quite the same since. Wolgast since. It was Nelson's frequent assertion that Wolgast was a "cheese champ" and when he had been repeatedly refused another bout, the Dane declared that Wolgast was slipping down into the class that Nelson stepped down and out of it, their feud thrived none the less, and if anything Nelson continued to be somewhat the loudest in hooting his erstwhile conqueror.

And though Wolgast when he looked Bat the other day was far from the fighter he used to be, Nelson seemed to be even further removed from his old-time form. About the only one of the old-time world beating title he was able to show was his ability to take punishment. Wolgast provided plenty of it for him to take.

It doesn't seem unlikely that the Wolgast-Nelson feud will go down through several generations. But Nelson, at his side and a long beard trailing from his chin will some day take a younger Nelson on his lap and tell him how to trim the Wolgasts.

"You can knock their box off, son," says Bat to the young one. "Just remember their old man was a cheese champ."

## RACE BOAT SINKS IN SAN FRANCISCO BAY

Scamp of Sacramento Boat Club Finishes First In Restricted Division

SAN FRANCISCO, Oct. 23.—Motor racing craft of all sizes and descriptions participated in the Portola races on San Francisco Bay today. The only accident was the sinking of the motor boat Fellows II, owned by Joseph Fellows of Los Angeles. The little vessel collided with a floating log and had a gaping hole torn in its side. It was beached to prevent sinking.

Herold's speedy Scamp, carrying the pennant of the Sacramento Boat Club, won first honors in the restricted division of the power boat championship, and the Fellows II finished second. The course was over a distance of ten miles.

Other results:

Free-for-all—Won by Sutter Basin, owned by Nunez Brothers, Sacramento Boat Club; second, Fellows II, three beats.

Cruiser race—Rob Roy, of Oakland, won; The Lillian, of San Francisco, second.

E. Bluff, owner of the Moana, protested awarding the handicap cruiser race to the Rob Roy because of the handicap. His protest was taken under advisement.

JONES CAUGHT.

Jones usually caught the 5:30 train out of the Grand Central for New Rochelle. This day, however, he had met a friend and remained over to renew acquaintance. He was plainly up against it, but finally managed to get the following wire off to Mrs. Jones: "Missed the 5:30. Don't keep dinner waiting. Will be a little late tonight."

It was long after midnight when he left the train at New Rochelle and ten minutes later before he reached home. Mrs. Jones met him at the front door. "You got my message, darling?" he asked, pressing a box of bonbons into her hand.

"Oh, yes!" quickly returned Mrs. Jones. "I got it all right. But I would like to know why you sent a wire at 4:30, telling me you had missed the 5:30 train."

Jones couldn't—Judge.

WANTED TO BE THERE.

Tony came over from the old country and obtained employment in America as a section hand. Some time afterward he went to his foreman and said: "Boss, I like huf vacation."

"Why, Tony, you don't need a vacation," answered the boss.

"Like huf vacation, boss," stolidly repeated Tony. "I like huf vacation, I like huf vacation, I like huf vacation."

"What do you want with a vacation? If I give it to you, Tony, you will go over to the old country, blow all your money, and then come back broke. You had better stay here."

"Like huf vacation, boss," stolidly repeated Tony. "I like huf vacation, I like huf vacation, I like huf vacation."

"What do you want with a vacation? If I give it to you, Tony, you will go over to the old country, blow all your money, and then come back broke. You had better stay here."

"Like huf vacation, boss," stolidly repeated Tony. "I like huf vacation, I like huf vacation, I like huf vacation."

TOO MUCH SEX IN LITERATURE.

Literature is overrated. If we were to believe the dictionary and the playwrights, sex is the most morbid, absorbing, and exclusive topic of thought and conversation. It is a misrepresentation of fact. When God created man He made him in the likeness of God. Male and female He created them. The sex instinct is the order of being and the bringing of natural and inevitable distinctions by a would-be new species of women-men and men-women is surely a melancholy sign of decadence both intellectual and moral.—From the Universe.

## TIGERS LOSE TO SAN FRANCISCANS

Schaller Hits the Bull for \$50 in Fourth Inning of Game

OAKLAND, Oct. 23.—By a score of 5 to 3 San Francisco today downed the Venice Tigers. The heavy stick work of Downes, Corhan and Schaller, and the steadiness of Fanning on the mound for the Seals, gave the home team an early lead that the Huganigs could not overcome.

In the fourth inning Schaller of San Francisco hit the tobacco sign in center field and won the standing \$50 prize. Score:

Three base—Corhan. Two base—Kane, McMahon, Schaller. Sacrifice hits—McArdle, bases on balls—Off Koestner 3, Fanning 1. Struck out—Fanning 8, Koestner 6. Double plays—McArdle unassisted, Corhan to Downes to McArdle. Melton to Brashear; Brashear to O'Rourke. Left on bases—San Francisco 4, Venice 5. Earned runs—San Francisco 3, Venice 1. Wild pitches—Koestner. Stolen bases—McArdle, Johnston, Downes, Corhan, Cartwright. Time—1:45. Umpires—Guthrie and Held.

## WRESTLERS COMPLETE THEIR HEAVY TRAINING

Josephs Will Enter Ring at 157 Pounds; Pimbo Much Heavier

Aram Josephs and G. Pimbo, the two wrestlers who meet in a hand-to-hand match at the Majestic theater Sunday afternoon, completed heavy training yesterday afternoon. From now until the date of the match, light work in their respective training quarters will be the order of the day.

Josephs has established his quarters in the New Armory. Hall and goes through his work every afternoon before a crowd of admiring spectators. The Armenian boy has lost seven pounds in the past two days and is now at 157, the weight at which he will meet Pimbo. The Italian will enter the ring 135 pounds heavier than Josephs.

Pimbo is experiencing a stiff workout every day at the Majestic and has his hand of supporters. Pimbo's rugged build seems to have convinced a number of fans that he will be able to throw the Fresno man three times in an hour, the conditions of the articles of agreement.

Two preliminaries have been arranged. Dan Allen of Fresno and Gus Kamos of San Francisco will meet in the first trial bout at catch weights. Two Japanese have agreed to go on for the second affair, although their names are withheld for the present.

## CAPTAIN THORBURN OF STANFORD OUT OF RUGBY

PALO ALTO, Cal., Oct. 23.—Captain James H. Thorburn of the Stanford University Rugby team, it was definitely decided today, will not play in the big game against the University of California because of an injury to his knee that has been troublesome for some time. W. D. Darsie probably will act as field captain.

## WOODEN LEG AS CLUB.

Bird Bellair, who says he is a writer, having apartments at the Hotel Empire, became engaged in a row with a pawn broker over the redemption of a type writer.

Bellair is accused of hitting Clarence Kaskel, one son of the proprietor, with a bronze statuette, and the other, George Kaskel, with his artificial leg.

Dr. De Passe dressed the heads of the pawnbroker's sons, and Bellair was arrested after he had readjusted his leg. He is charged with felonious assault.—New York American.

TAKE "FIRST LOVE" OATH.

Justice George A. Ziegelmeyer, of East St. Louis, swore a Southern Illinois couple to the strangest affidavit of which he ever heard.

When Miss Lella Kirk, of Ina, Ill., and Grover Kelly, of Mount Vernon, Ill., walked into his office they said they wanted to be married.

"But before you marry us, judge, I want you to take my future wife's affidavit to the effect that she has never loved any one else, and never will love another," Kelly said.

Justice Ziegelmeyer agreed, and the young woman took the oath. After signing the affidavit the young lady turned to Kelly and said:

"Now, I want you to sign a similar affidavit, Grover."

Then the bridegroom signed an affidavit, and Justice Ziegelmeyer married them.—St. Louis (Mo.) Dispatch to Philadelphia Inquirer.

## GIANTS COME OUT AHEAD IN SIOUX CITY BATTLE

SIOUX CITY, Ia., Oct. 23.—The White Sox and the New York Giants, on their tour of the world, clashed in a game at Riverside Park today, the Giants winning 5 to 3. Fromm and Scott pitched, both being touched up lively fashion. Score:

White Sox..... 3 11 12  
Giants..... 5 12 1  
Batteries: Scott and Daly; Fromm and Wingo.

## POTERVILLE READY FOR RUGBY BATTLE

Bakersfield Confident of Victory Over Citrus Pickers

POTERVILLE, Oct. 23.—Chloe of the Poterville High Rugby team has narrowed down now to about twenty candidates. Superintendent Braus, head of the high school faculty, took the pruning hook to the squad last week with the result that four of the fast backfield players were eliminated for an all-out failure to maintain scholarship requirements.

Despite this declination of the squad, the team has vastly improved during the past four days' practice and last night for the first time this year the members of the first and second teams gave indications of having come into possession of that pop and fight which won the pennant for Poterville last year and the year before.

Head Coach Pomroy is the usual optimist as regards predictions for the game with Bakersfield Saturday, as a result of which Poterville's relative standing as regards the C. C. A. A. League will be established.

"The boys are showing plenty of spirit," said Pomroy today, "and I believe we have a good fighting aggregation. Will they win Saturday? No one can predict that. I believe the boys will give a good account of themselves. Whether they will take the game or not remains to be seen."

Rev. R. A. F. Molliereux, formerly captain of a famous English team, now of San Francisco, will referee the match. A number insist that the game will be played strictly on its merits.

## WINCHESTER

Rifle and Revolver Cartridges WIN.

## U. S. GOVERNMENT ACCURACY TESTS

The U. S. Government experts, after a series of exhaustive tests, selected Winchester Rifle Cartridges for use by the picked riflemen of the World who are to compete in the International Matches of 1913. They also selected Winchester Revolver Cartridges, finding them the best ever tested under like conditions. All Winchester Cartridges are made by the same modern system, and of the same high grade materials as those which won the stamp of superiority from the U. S. Government experts. For that reason it pays to use Winchester cartridges in any make of rifle, revolver or pistol. Ask for Winchester make, the W brand, and the results will repay you for your trouble. They are Made By The Makers of Winchester Guns.

## FRESNO WINS SIX GOLD MEDALS AT LAND SHOW

Raisins, Dried Fruits, Table Grapes and Olive Oil, Prize Winners

Merced County Is Second With Three Gold and Seven Bronze Medals

Fresno was the gold medal county at the California Land show, as far as the awards have gone. The total includes six gold medals and one bronze medal. This county won gold medals on the following:

- Best display of dried fruit.
- Meritorious installation of exhibit.
- Best display of raisins.
- Best display of table grapes.
- Best display of olive oil.

Fresno county also won a bronze medal on its exhibit of plums, including plums.

The exhibit installed by William Robertson, secretary of the Chamber of Commerce, contained all varieties of land products and the good showing made in competition with scores of other counties of the state, is very gratifying.

Merced county came second among the San Joaquin valley counties, winning three gold medals, one silver medal, seven bronze medals and a diploma. It took gold medals for the best display of barley, the best exhibit of rice and the best exhibit of sweet potatoes. The silver medal was won on its exhibit of a packed box of peaches ready for shipment.

It won bronze medals, of third prize, on its exhibits of peaches, pears, apricots, mentioned in the printed list, olive oil, wheat and white oats. The government of Australia took the first prize for the best exhibit of white oats. The diploma was awarded on its exhibit of orchard products.

The Turlock Irrigated Land Co. of Stanislaus county won bronze medals for its exhibits of sweet potatoes and unfermented grape juice.

Kern county won a silver medal for its sweet potato exhibit and a bronze medal for its display of alfalfa.

Madera county won a bronze medal for its exhibit of raisins, Yuba county winning the gold medal.

## TURNED 'EM AWAY, BUT, LISTEN, THEY CAN "COME BACK!"

The box office expression, "turning 'em away," was true in more senses than one at the Princess theater last evening. An accident which put the motion picture machine out of commission, resulted in the turning away of a large audience gathered to see "Victory." The United States endorsed picture showing the American fleet in action, before the entire production had been run.

The machine will be repaired today and the management announces that all those who did not see the entire picture last night will be admitted free this evening if they will present their seat checks at the box office.

## SECURING DEEDS TO RIGHT OF WAY

Granger Says His Big Work Will Be Finished In Two Weeks

Accompanied by a notary public, P. S. Granger, promoter of an interurban line past Clovis, yesterday made a trip over his proposed route and secured signatures to the deeds for the right of way and the bonus. The notary was taken on the trip to acknowledge the deeds. Granger declared last night that he had been promised every inch of the right of way and that it would take him about ten more days to finish up his end of the business.

Granger made the following statement last night:

"I shall build the interurban line from the city limits of Fresno past Clovis. I am putting every thing in proper shape just as fast as I can and the moment this is done construction work will start and the road will be built as quickly as possible. I have said that this road will do the most good and serve the most people. My line will touch three wineries and one packing house between Fresno and Clovis and will open a large tract of land east of Clovis. The opening of this land will mean lots to the people of Clovis as well as Fresno. In order that the people may know whether or not I have the proper backing I wish to state that my financiers are men who are able to build and equip the road in short order and if necessary could build a hundred miles more. These gentlemen have been here and accepted the proposition. Their names are being withheld, but some of our most prominent business men know who they are. I am working for the best interest of this city and the county which will be served by the road."

"I am out to build this road, and in record time. I have the money and the right-of-way, and the people are with me. I have already asked for a franchise in Clovis and shall soon ask for one in Fresno. I am only asking for 35-foot right of way and it parallels the public highway all the way and I am asking a bonus of \$12,000 between Fresno and Clovis, and I am glad to say that I have met with complete success."

"I am out to build this road, and in record time. I have the money and the right-of-way, and the people are with me. I have already asked for a franchise in Clovis and shall soon ask for one in Fresno. I am only asking for 35-foot right of way and it parallels the public highway all the way and I am asking a bonus of \$12,000 between Fresno and Clovis, and I am glad to say that I have met with complete success."

## TIES TO RESCUE MAN FROM OFFICER

When Henry Lehman was arrested last night by Patrolman Murphy, Pete Openderver came to his rescue. Both men were lodged in the county jail by the officer. Lehman was charged with obstructing the justice and Openderver with interfering with an officer. Mrs. Lehman called the police last night and said she would swear to a warrant this morning, charging her husband with battery.

## FRENCH PROTEST AGAINST HIGHER MEXICAN DUTIES

PARIS, Oct. 23.—The French minister to Mexico was instructed today to protest energetically against the augmentation of 50 per cent in the duties on foreign products imposed by the Mexican government.

The cruiser Comde was ordered to be ready to start from Brest for Vera Cruz at 5 o'clock this afternoon.

## We Use No Drugs in Examining Eyes

We use the scientific methods of measurement in examining your eyes to determine what glasses are needed. This is the accurate method because we examine your eyes under normal conditions. Drugs must necessarily change conditions. Drugs put the eyes in an abnormal condition that is sometimes very uncomfortable.

## DISTRIBUTE 1,000 POSTERS HERE FOR SHRINERS

C. T. Cearley Prepares for Reception of Tour In Fresno October 29

Motion Pictures of Raisin District May Be Taken During Visit

Plans for the reception of the California Shriners' concert tour, which will arrive in Fresno, October 29, are going forward rapidly. One thousand brilliant posters announcing the arrival of the tour were distributed in Fresno and vicinity yesterday by C. T. Cearley, who has the arrangements for the reception in charge. The complete program for local ceremonies will be announced within a few days.

The tour is not one exclusively for Shriners but is for the general advertising of California. After leaving this state the tour will go East and spend several months advertising every section of California.

During the stop in this city, advertising matter, produce and other matter will be handed aboard the Shriners' special for use in the Eastern states. It is probable that motion pictures will be taken of some of the most interesting features of this county, although the Shriners have reached no definite decision as to this point. In case the pictures are secured, they will be used on the Eastern tour.

It is expected that \$150,000 will be secured for the Shriners' publicity fund, according to Cassimir J. Wood, secretary-treasurer of the California Shriners committee. At first only \$100,000 was expected but during the short time that the tour has been on the road, money has been received in liberal quantities.

Wood urges co-operation in every district and in a letter to Mr. Cearley requests that the tour be thoroughly advertised throughout Fresno county and the San Joaquin Valley. Wood states that the Shriners could use a million dollars to advantage as there are many districts to cover.

Cearley says that a number of the state's most prominent vocalists have been obtained for the tour. Miss Margaret Davis Hughes, the piano accompanist, the management has secured one of the best instrumental players in the state.

Miss Ella R. Atkinson, dramatic dramatic soprano, who has postponed her engagement with the Royal Opera of Madrid to assist the tour. Miss Atkinson made a distinct hit with the selection recently when she appeared in Santa Barbara. "Keep Your Golden Gate Wide Open," by F. B. Silverwood is another selection of rare merit.

The opening scenes for the photograph, "I Love You, California," were snapped yesterday at Santa Barbara. This picture will be widely circulated through the East. The play was written by Silverwood and a talented company has been secured for its presentation.

## OILED GRAVEL ROAD IS REPORTED SUCCESS

Experiment On New Lines Tried On Madera Avenue, North of Kerman

Requiemster H. M. McLennon of Supervisor Jorgensen's district reports success in the construction of a model road such as the one north of Kerman when near a river or creek bed where gravel may be had at a minimum for the mere asking. Constructed under the conditions that this one was a lasting and cheap road is the result with a road surface as smooth with usage as any city paved street.

The roadmaster points with pride to the 4 1/2 miles of gravel road on Madera avenue from the White's bridge road to within two miles of Shasta crossing, which last stretch being in gravelly soil has a good road approach to the river bridge crossing and was not worked over. Madera avenue on the 4 1/2 miles was an oiled road. On top of this liquid road all was spread liberally and then four inches of river bed gravel spread, this gravel screened so that the particles passing through the screen meshes were no larger than a pea. This gravel was well tamped and rolled and with the liquid oil working upwards combined with the gravel. McLennon says this road experiment is on new lines and recommends it wherever gravel can be had cheaply and cost of hauling.

## CHINA IS TO HAVE NEW NAVAL COLLEGE

LONDON, Oct. 23.—China has decided to establish a central naval college at Shanghai to supplement the work of the naval schools at Tien Tsin, Nanking and Canton. Orders are expected soon for a number of additional training ships.

The British admiralty has lent to the Chinese government, Captain Harrod Christian, of the British navy, and not four Admirals Arthur Henry Christian as stated in dispatches from Peking, to superintend the reorganization of the training system of the Chinese navy. Captain Christian will leave soon, accompanied by a staff of naval instructors.

**TRIAL OF GREAT SHIP**  
ROCKLAND, Maine, Oct. 23.—The new battleship Texas, the largest ship in the United States navy and the most formidable fighting craft which any power has brought to the trial stage, began the first of her builders' official acceptance trials over the government-measured course off Rockland today.

## FRESNO MEN JOIN TAX ASSOCIATION

State Organization Formed To Promote Economy In Government

John C. Moore of Fresno was selected a director, and Moore, Harvey W. Swift and M. W. Muller, were chosen as members of the advisory council of the California Tax Association which was organized in San Francisco on Wednesday. The meeting was called by John S. Drum, head of the Pacific Gas & Electric company.

The founders of the new organization assert that it is strictly non-political and that its chief object is to promote economy in the various departments of the government in order that the maximum amount of tax receipts may be used for public purposes, at a minimum cost of administration. It is state-wide in its scope.

Among the secondary objects of the organization is the promotion of county associations throughout the state, and with this end in view, the advisory council of 150 men was selected, the members being from all parts of the state.

In addition to its other duties, the California Tax Association will gather, compile and publish from time to time, data on all questions pertaining to local and state taxation and the expenditure of the revenues secured thereby, for the information of the public and to aid legislative and administrative action.

## TARPEY TO PROMOTE RAILROAD, IS REPORT

Inspects Proposed Line In Sacramento Valley

A report has just been received in Fresno to the effect that M. P. Tarpey is inspecting himself in railroad building in the Sacramento valley. Following an inspection trip through the country around Auburn, Placer county, by A. M. Seymour of Sacramento, attorney for the Northern Electric and M. P. Tarpey, the inspection has gone forth that plans may be taken up for the building of a railroad from Sacramento, through Auburn to Lake Tahoe.

Seymour and Tarpey inspected a portion of the Smith railroad, which was graded from Sacramento to Loomis over a year ago and then abandoned by the Minneapolis lumber company. They also went into El Dorado county to the vicinity of Cool to look over land, and visited the Olive Hill ranch.

## WIFE IS DESERTED ON WEDDING DAY

Bell-Boy Middleton Said She Could Well Support Herself

Mrs. Blanche Middleton, a pre-possessing looking young woman, had an extraordinary marriage experience according to her testimony before Judge Church, resulting in the granting to her of a divorce from Wesley Middleton because of desertion on their wedding day.

Middleton is a hotel bell boy. The marriage, according to the evidence, was before just the of Peggy Smith on August 31, 1908. The young couple separating after the ceremony and he promising to come to the prospective home with his mother-in-law for the wedding feast. He did not come, never did come to his bride, and has never contributed one cent to her support.

Some time after communication was had with him, and his only excuse was that as he was a hale and hearty person she could well seek employment and support herself. Mrs. Bertha Elwood, the mother of the young plaintiff, corroborated her as to the non-support and the legal separation followed. Mrs. Middleton has supported herself as a hotel waitress in Coalinga during part of the time since the wedding day. She was permitted to resume her former name of Elwood.

The divorce suit was pending for a long time because Middleton could not be located. He was found at San Jose in Stanislaus county in September last and personally served with summons but chose to default.

## PRESIDENT SETS THANKSGIVING DAY

WASHINGTON, Oct. 23.—Including the virtual completion of the Panama canal under the marks of "beneficent Providence," which the nation, he says, has enjoyed in the past year, President Wilson today issued his first Thanksgiving proclamation, naming Thursday, November 27, as a day devoted to gratitude for the people's blessings.

## SENTENCED FOR PART IN NANAIMO RIOTS

VANCOUVER, B. C., Oct. 23.—Several prominent officers of the Miners' Union at Nanaimo and three foreigners were sentenced today to two years in prison for rioting. Thirty-four others were given sentences ranging from a year each, with a fine of \$100, to three months each and \$50 fines. There are still nearly 200 cases of alleged rioting to be heard.

Among those sentenced were Sam Guthrie, president of the Ladiesmith Miners' Union, and J. J. Taylor, vice president of the British Columbia Federation of Labor, both of whom were two years and B. Maclellan, secretary of the Ladiesmith Union, who was sentenced to one year.

Kutner's, The House That Sells "Wooltex" Suits and Coats for Women

## EX-HUSBAND ARRESTED FOR KILLING FAMILY

RAY, N. D., Oct. 23.—L. Culberson, charged with shooting D. T. Dillon and instantly killing Mrs. Dillon and her daughter Lena yesterday was arrested today on a train.

The officers say Dillon has identified Culberson, a former husband of Mrs. Dillon, as the murderer. According to Dillon, Culberson applied for work at the Dillon home, followed Dillon to the barn and there shot him in the back. Mrs. Dillon was killed while running to the barn to save the rest of the family. The girl was murdered in the house.
